Business Basic

This look is suitable for business style. It is chic, simple, and classy. Strategically apply volume to the garment, focusing on ruffles to maximize durability and comfort. The black sunglasses, heels, and clutch make the look more stand out. The material of the top will be silk and the bottom will be jersey cotton.

Monochrome puffs dresses showcasing the simple, chic, and clean look. Easy to dress up and down, the dress continues to be a wardrobe staple for Asia's womenswear market.

Flowy dresses with nature colours suit the best for vacation. This is a laid-back approach to feminine dressing, moving away from the popular prairie look of ruffles and puff sleeves.

We have seen many people wearing blazers and comfy pants for work. This looks remain simple, from the oversized cutting, colours, to the sharp/rounded shoulder pads.

Ready to wear collections are the best for staying simple yet comfortable at the same time. Using natural color and basic cutting makes the look cleaner..

These haute couture dresses are all about playing colors and volumes. A relaxed approach to youthful femininity details such as ruffles, pleats, and bows.

Elastic waist details and volume puff sleeves add 'girlish' charm to this classic silhouette, aimed at young women markets. Stick to a minimal palette or add a pop of colour accessories.
