Reilly Severin

January, 2020

A qui le droit,

J'emappelle Reilly Severin, je suis étudiante en commercialisation de la mode au College Lasalle. Je cherche un travail a temps partiel.

My name is Reilly Severin, I am a fashion marketing student at Lasalle College, and I am searching for part time employment. I have been working in customer service for nine years, and have been serving and bartending for the last six. I have worked in casual settings, bartending for a raucous bunch, and fine dining restaurants, where etiquette reigned supreme. These experiences have taught me how to be able to engage with people from all walks of life. They've also given me the ability to consider a guests needs and take pre-emptive action to enhance their experience.

The interpersonal skills I learned through serving will be an asset as I transition to focus on retail. I have previous experience working in a storefront. I am visually oriented, and I enjoy curating an aesthetic. I am intrinsically motivated to do my best because I take pride in all my work. I am solution oriented, and I sell products by being honest which gains a guest's trust. I adore styling, and fashion on a cellular level, and I think this translates. I can't help but get excited about clothes because they're like paints to an artist.

J'apprends présentement le francais. À l'école, j'ai un cours de francais. En dehors de l'école j'ai un groupe où nous pratiquons le francais. Je comprends lorsque que les gens parlent et je peux également répondre. Je besoin de plus de pratique parce que je veux parler le français de façon courante éventuellement.

I actively try to be a kind and positive person to be around.

Merci et thankyou,

Reilly Severin
