COMMERICAL DESIGN

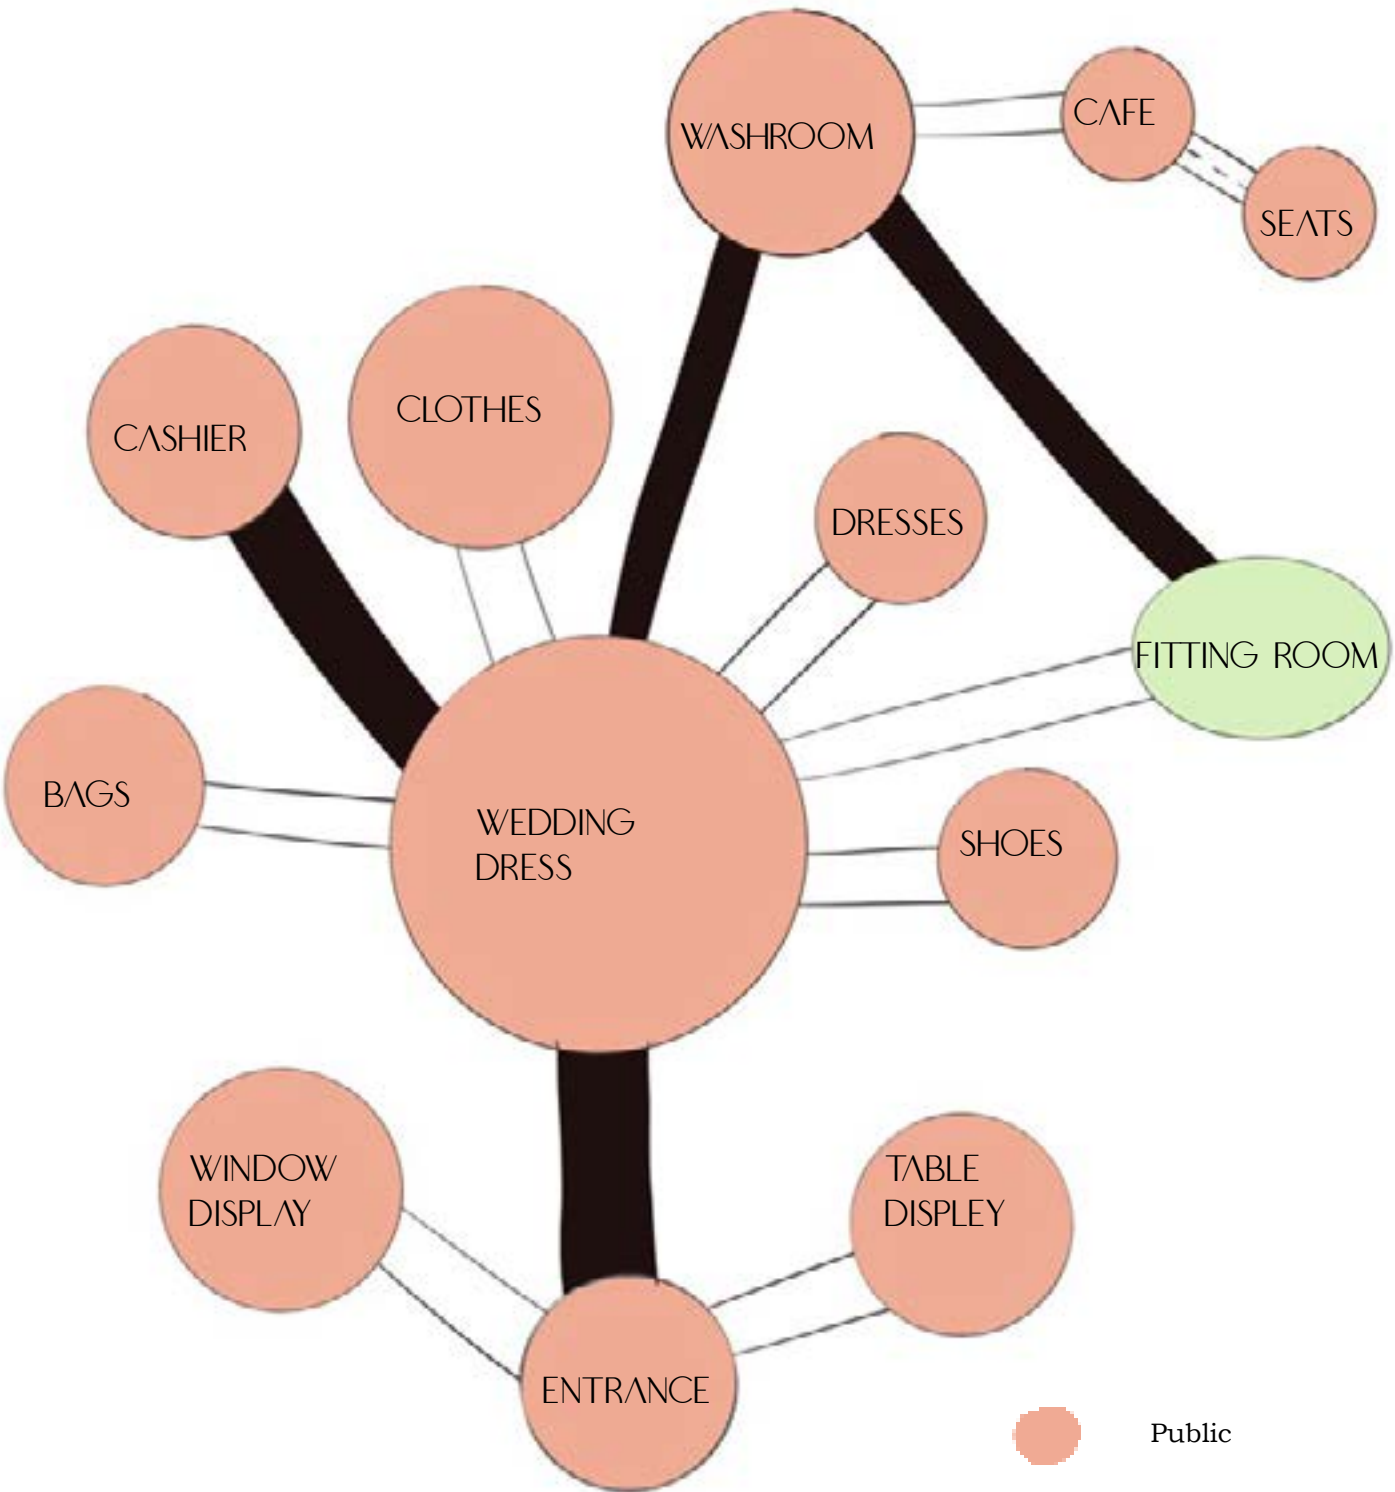

FOR ELIE SAAB

SKETCHES

His design style is full of elegant and luxurious elements, which I would like to draw a contrast with his design through the simple environment.

Elie Saab is a Lebanese fashion designer. He created a new high fashion clothes logo, which he used his name as a brand.

Elie Saab's dressing creates an atmosphere of elegance and refinement.

The first element in his design is elegance and luxury, which can be seen in almost all his works.

The store also has a small cafe inside of it, it is a soft and relax place for the customer.

Except the normal fitting room, it also provides a separate space for couples that want to try wedding dresses, which is really large for wearing dresses and make up.
