Profile

I am an organized person, curious about visual contents and lover of fiction, I have a good of color, composition, and structures in 3D and 2D. I managed the work with unexpected things creating solutions to the problems that can appear. I am a passionate illustrator, designer and 3D artist with positive vibes.

Work Expirience

- Since 2016** — Some of my work experience is freelancing projects for independent enterprises, making image designing like logos, packaging, flyers, etc.
- 2017** — And also I worked on a personal 3D project, a short film where I practice modeling, rigging, lighting, texturing, rendering and composition. For six months.
- 2018** — Right now I am doing 3D models, assets and also characters to improve my demo reel and also selling them on an internet platform.

Education

- 2015** — I graduated from High school and immediately start studying Graphic Design in LCI Bogota, Colombia.
- 2017** — When I finished my career and I got my Technologist diploma I decide to get a specialization in 3D Animation here in Montreal and I graduated the same year.
