To Whom It May Concern,

I am a teacher at Milton District High School and I have had the pleasure of teaching Lauren both Grade 11 and 12 Fashion. Lauren proved herself to be both dedicated and independent when it came to all of her projects. Lauren put her best effort into her written and sewn assignments. The garments that Lauren made were done with the greatest attention to detail and always done in a timely manner.

As a student, Lauren could always be counted on to help out her fellow classmates and her cheerful disposition was always appreciated. Lauren is not one to shy away from a group project and always put her best effort into all situations. Her ability to share her skills with fellow students set her apart as one who could be counted on to help out her fellow classmates.

The Halton School Board runs a skills Olympics each year and when asked, Lauren was very quick to offer to enter the contest. Even under the stressful situation of a competition, Lauren could be counted on to keep her sense of humour. She attacks a challenge and does not back away from new situations.

Having come to know Lauren over several years as a teacher, I can honestly wholeheartedly recommend Lauren. She is a truly caring individual, with a hardworking ethic, and would make a wonderful addition to any work environment.

Sincerely,
Liz Carson
