THE CHIN

“Safety is my number one priority for my kids. As we went to the ski mountain near our house I make sure that descent’s helmet are always in pack. My kids were cranky on the way up the mountain but the colorful and variety of animated design, has made my kid’s skiing journey fantastic. “

MELISA JUNIARTI
a working mom,
descente customer

HANA LIVEALOMI
stay home mom, descent's
customer.

"My son loves playing in the snow. but too long being in the cold, his skln got red too fast. Forcing me to stop him right away. Since theres descent's gloves with extra padding and heat tech, i am not worried anymore. Playing with snow never been this fun, my son said."

“ Night skiing has always been my thing. and i like my kid’s company me to. But at night, my vision is not as good and often slip on the ice. Which could be very dangerous sometimes. Using the descente’s booth has helped me solve the problems. I have never experience the same thing again/”

SHINIE BONG
stay home dad, descente’s
customer.
