

The master suite is located on the east side of the second floor. The suite includes a master bedroom, a two sides walk-in closet and a master bathroom. The master bedroom has a big window as other bedrooms do. It gives the room beautiful daylight and view which are a big plus for a bedroom. The warm white curtain adds a gentle and calm feeling into the space. The headboard of the bed is one-piece millwork with soft cushion. There is also a reading corner on the other side of the room beside the window to make this room more functional. The wall color is muted navy blue; it is psychologically pleasing to the eye and makes the client relax and have a high quality sleep.

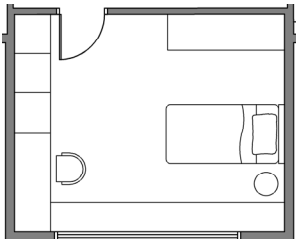

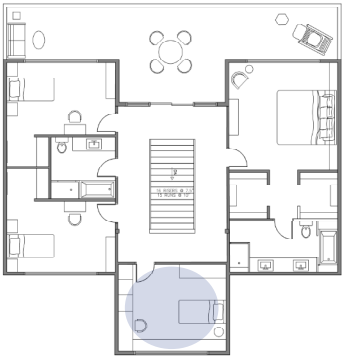

# MASTER BATHROOM

---

The cream-coloured stone wall makes the space looks clean yet not cold. The separated bathtub area and the shower area make the space neat and functional. The window at the bathtub area brings the natural light inside, makes bathing a relaxing and enjoyable experience for the couple.

# DAUGHTER'S BEDROOM

The daughter's bedroom is in the south of the second floor. This room is not that spacious, and the light color palette makes the room looks broader than it is. The bench seating under the window is connected with the study desk to save the space. It also acts as a nice reading place for the daughter. There are adequate storage room and shelves in this bedroom as well.

# RECEPTION AREA

---

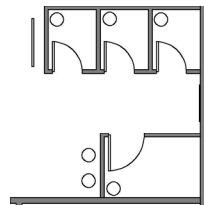

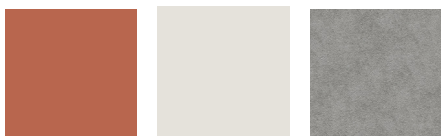

The reception area is on the left side of the entrance. It is because according to a survey, most of the customers tend to walk to their right when they enter the store. Locating the reception area on the left side is easy for the customers to walk through the whole store and then check the bill on the way out. It is also convenient for the staffs to have the broad sight of securing the store and helping out the customers. The reception desk is designed in a minimal style adapting to the brand concept.

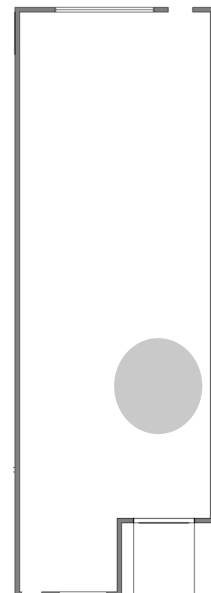

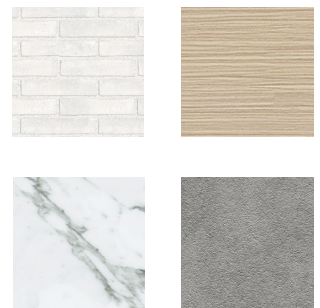

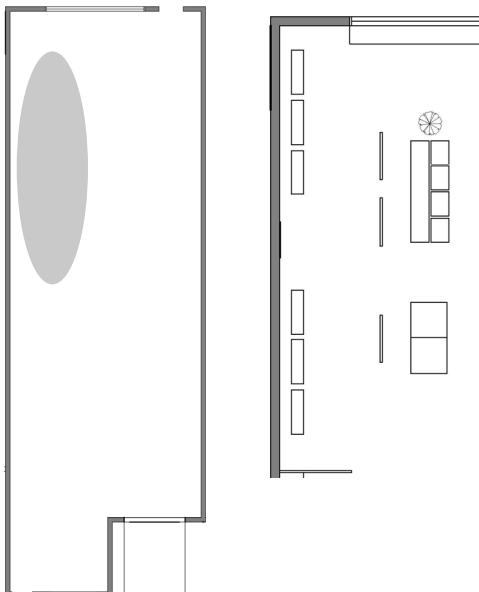

# FITTING ROOMS

---

There are three regular fitting rooms and a wheelchair accessible fitting room in this store. They are located at the back of the store between the women's display area and men's display area. There is a big mirror on the wall beside the fitting rooms allowing the customers to check their appearance in a further distance.

## WOMEN'S DISPLAY #1

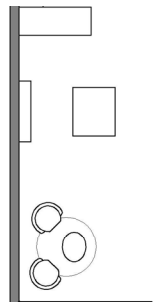

The main product of OAK+FORT is women's clothing. Therefore, the women's display is the largest area in this store. It is located at the right side of the entrance including several folding display surfaces, individual clothing racks and hanging racks connected to the ceiling. In the middle of the hanging racks, there is a wall mirror allowing the customers to try on the outerwear and check.

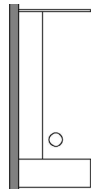

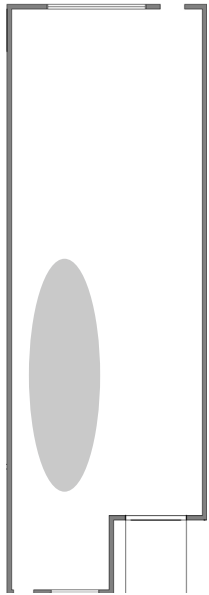

## ACCESSORIES AREA

The accessories area is on the back of the women's display #2, connecting with a ceiling height display unit. The primary color of this area is muted salmon pink, with the light wood and white brick wall, creating a soft and gentle feeling.

## WOMEN'S DISPLAY #2

The second women's display is combined with the accessories display area and besides the main women's clothing display area divided by a translucent glass wall. It is smaller and in a different color. The display unit allows the customers to really take their time to go through the clothing in a comparatively more private space.
