4. Display Area
5. Storage
6. Manager Office
7. Staff Room
8. Cash Desk
9. Jewelry Display
10. Display Area

Design Concept

Matt & Nat refers to Materials and Nature. The brand is simple, neat and clean. It enhances an idea of living beautifully which means appreciating the humanity, creativity and positivity. It also encourages vegan and no animal products used. Matt & Nat explores ways to remain sustainable and eco-friendly by, for example, manufacturing their products with recycled plastic but in good quality at the same time. This design is to create a simple, neat and clean space and eventually to achieve the idea of living beautifully.

Ocean can be calm and powerful. Its life form is charming. When sea water is creeping towards the beach, it generates waves gently drenching the sand which is simple, clean and beautiful. In this design, it aims to create a feel of simple and beautiful movement throughout the store.
