## DESIGN

Chanel at Couture Spring 2019

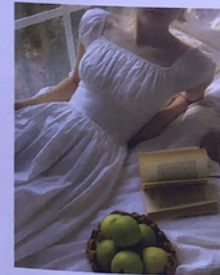

In his serene collection Lagerfeld was particularly inspired by the exhibition "La Fabrique du luxe: Les marchands merciers parisiens au XVIII<sup>e</sup> siècle". Focuses on the Parisian merchants who supplied the wealthy of the 18th century with luxury goods of all sorts—from silken ribbons to gilded picture frames to sumptuous furnishings.

Hearts and Found

Each design from Hearts and Found can be made to your specific measurements in the fabric of your choice.

Their designs are made from limited fabrics and are not mass-produced. You will find a selection of unique quality textiles handpicked for their dresses.

Cecilie Bahnsen

Bahnsen's best-known looks are romantic, voluminous dresses made in beautiful fabrics that manage to be pretty but never saccharine. Bahnsen's designs really embody this principle. Since her first collection, she has stuck to her guns, crafting an identity steeped in femininity: gauzy baby-doll dresses in powdery pink, white blouses with billowy sleeves, and jackets with a school-girl quality.

## LOCAL

Seratus Kapas

eratus Kapas is genuinely born through stories of life that define our existence. The language she uses spoken by the silhouette, the material and the colour she experienced. Every silhouette is the translation of every story, every fabric has their own time, and every colour sings the song of a persona. Every piece in her collection has a story to tell you. Now comfort makes friends with her and agrees upon all stories to run along together.

Saat Senggang

This brand is a project to give support to women anywhere they are to be able to create and manifest the things they like with love and productivity in their free time, regardless of their age. Handbags are made by older women (ibu-ibu) from Malang, Semarang, Solo, and around with recycled materials.

With Love

A womenswear fashion brand based in Indonesia that is popular with its romantic vintage dresses.
