SS21 MENSWEAR COLLECTION

## ACQUAINSTANCE

This collection has the intim as the main topic, talking in a personal and kind of introspective way to show a part of my essence.

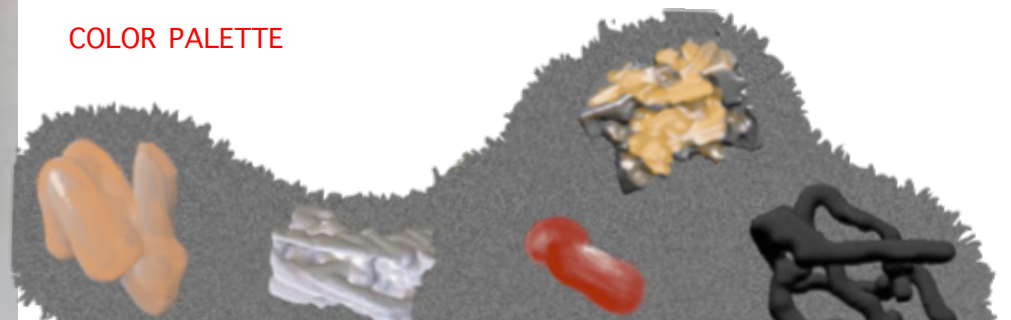

Family has been a way to aproach this feeling of being home and staying in a personal way, due to this, a lot of the materials used in the sketchbook linked to this project were family relics such as photographys, old curtains...

I have contrasted it with a more modern approach mantaining the main idea that is created around the idea of protection, of a body, skin or person, as it can be represented both by the family or in a more contemporary way by the textures used.

All the collection is mantained in a personal style that can be defined as spontaneou-sand

not searching for the aesthetic perfection, due to this i have added the relation between the ugly and beauty as a topic related also to my work. The combination of all this little topics exposed in my universe makes a hole colective of all the feelings that i want to transmit for my collection.
