

"I chose Lasalle College since I wanted to learn fashion. For over the past 2 years, the college has been giving me the opportunities to study and work with many awesome people. We, together, are chasing our fashion dream at Lasalle. And I really appreciate the college not only as a place to learn but a place to share our passion and actualize our desire."

"I love Lasalle College." - Iris (Fashion Design)

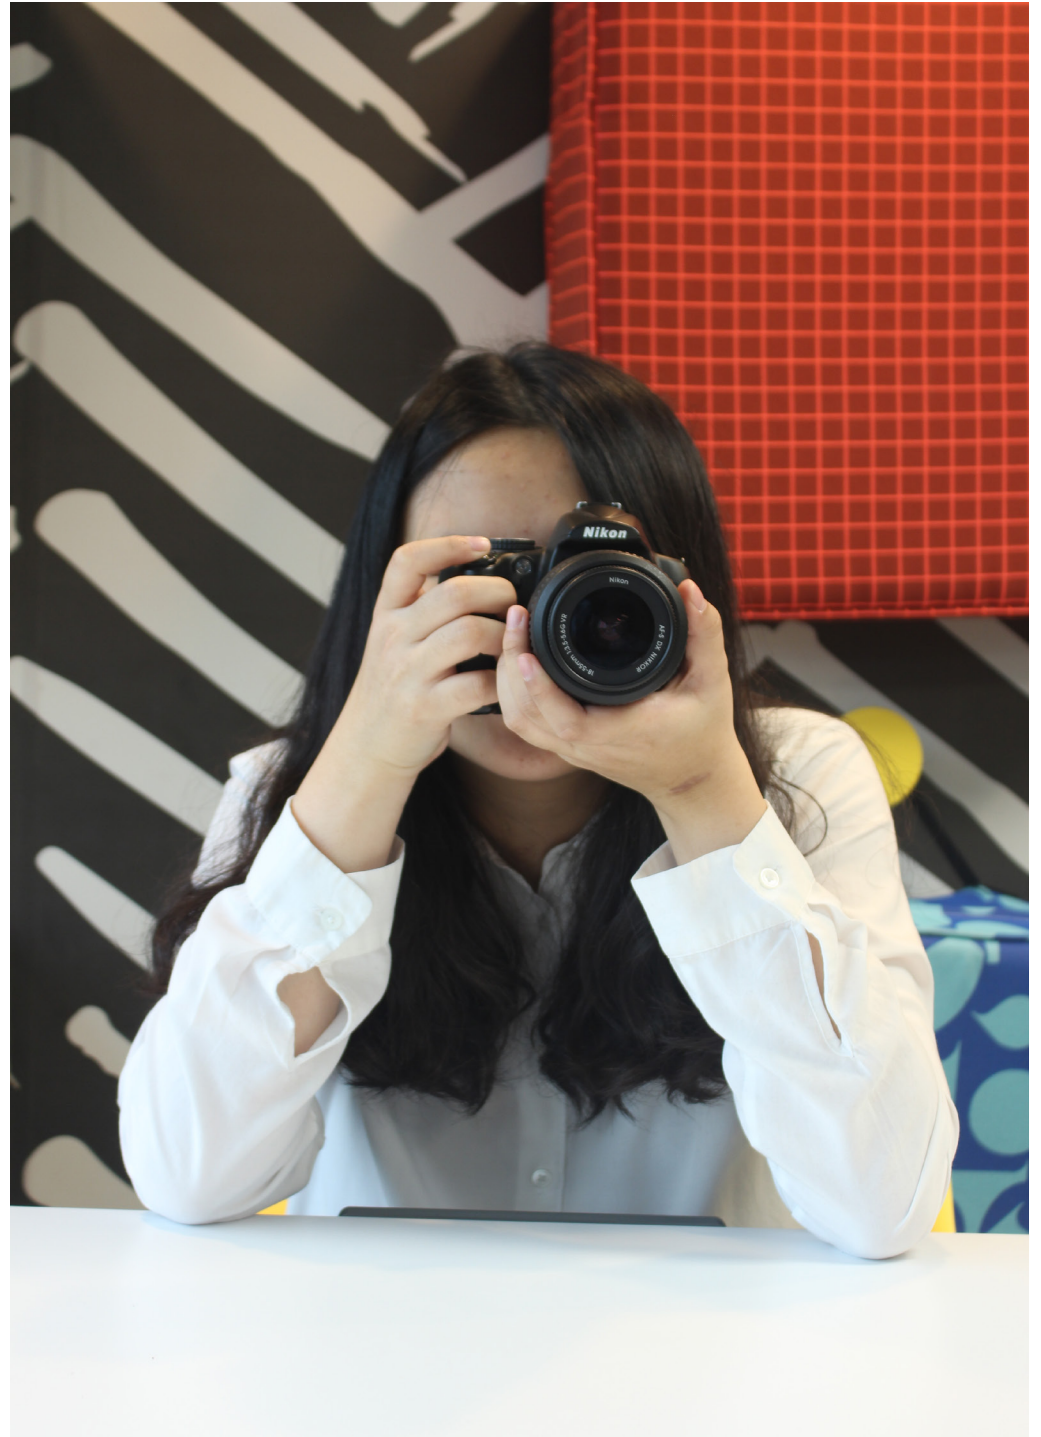

HUMANS OF LASALLE COLLEGE

"One of the most unforgettable memory I have at LaSalle College is that I accidentally jumped in a girl's view while she was taking photos for her project. And that shoot somehow turned out to be kind of artistic haha. So she called me back and showed me. We laughed a lot. She even taught me how to shoot. And we became best friends. You never know what is going to happen right in LaSalle College. It's just a place where I have so much fun!"

"Library is my favorite spot at Lasalle College. I spend most of my daytime at this library if I don't have class. It's small but comfortable enough for me to study or read books. I will miss this place when I'm graduated haha."
