

# ORDER ■ PROJECT

spring/Summer 2017

## Era

We are in an era of recycling is a most , so much fabric is constatly put to waste simply because it was not the right shade or in some other cases it default in the way it was sewn . A great initiaves would be to reuse garment out the old and defective one`s the

## What is Upcycling

Upcycling is a way of processing an item to make it better than the original. In the example of clothing, this is often taking something that doesn't fit or is stained/-torn and refashioning a wearable product from it.

## Benefits of upcycling

Upcycling stops adding stuff to a world that is already overwhelmed with material things. It also reuses materials that may otherwise end up in the landfill in creative and innovative ways – producing original often one-of-a-kind items from what many consider to be waste. It is a way for companies and designers to be more efficient with leftover materials such as upholstery scraps or vintage textiles and to give new life to worn-out jeans and tattered T-shirts.

# THE IDEA

creating a garment out of men`s white shirt , by using most of the existing garment current material . The goal of this project is to showcase that fashion can be Refurbished and upcycled by remaining creative and innovative . The Idea is to use at least 95% of the initial shirt .

INSPO.

An enormous white hood made out of organza fabric attached the shirt collar ,with a cropped shirt, a white tank top made out of white chiffon . A skirt made out of the man's white shirt
