SANTORINI&

THE ALMAFICOAST

Santorini is the supermodel of the Greek islands, a head-turner whose face is instantly recognisable around the world: multicoloured cliffs soar out of a sea-drowned caldera, topped by drifts of whitewashed buildings.

With its reputation for dazzling panoramas, romantic sunsets and volcanic-sand beaches, it's hardly surprising the island features on so many travellers' bucket lists.

EDITOR'S MESSAGE

Thanks

God for the project to make this magazine can be completed properly.

This is even more appreciated considering this special time of year; We're proud to see that the winter break in the middle didn't hold you back from producing our new Mag.

While thanking you once again, I would like to emphasize the call to generate new ideas for our Family, which are not meant to be lengthy reports and / or articles, but brief facts about how you make your project concrete, your human face. help through your initiatives. Today visibility is more important than ever, and the way we communicate it: I want to share experiences for people to feel and how to dress in Mediterranean. And now I can say that you can!

Grecian style is all about the minimalist-maximalist mix. Pair simple tops with chunky jewellery. Combine straight-legged denim with flamboyant sandals, and complement crisp white shirts with huge straw hats. To nail Santorini style, add these essential items to your luggage.

With so much to see and do on Santorini, having a dress that covers all bases is an essential addition to your wardrobe. If you're a trend follower, embrace bold colour blocking with yellows, oranges and pinks

flip-flops

The quintessential beach shoe is undoubtedly the flip-flop. They easily fit into beach bags, and they're also super inexpensive, so you can get a pair in several colors. Plus, they're easy to take on and off, so you can protect your soles from the hot sand and then flip them off once you get to your beach towel. Plus, shaking the sand out of these simple shoes is absolutely effortless, as there are no creases or crevices for it to get stuck in.

Statement hat

French designer Jacquemus's 'La Bomba' tribute to his mother may have drawn inspiration from Marseilles, but the results are perfect for the Greek islands – specifically his oversized straw hats, which ensure that you'll stay shaded all day long and will look great against the striking scenery of Santorini's red beach. If such oversized shapes are a little too daring, the towns of Oia and Fira provide copious opportunities to pick up more restrained, local versions.

BEACH DAY

Research finds that spending time by the ocean is pretty good for your wellbeing. In fact, according to an analysis of English census data published in the journal Health Place, those who live by the coast report better physical and mental health than those who don't.

There's nothing quite as synonymous with summer as the beach — and we've got good news for those who flock to the surf and sand as soon as work lets out on Friday afternoon.

See the line where the sky meets the sea?
It calls me
And no one knows
How far it goes
If the wind in my sail on the sea stays behind
me
One day I'll know
