WHO AM I?

I am a highly motivated individual that loves working in a team. Proactive, goal oriented and always on the move I would like to gain some work experience in the Fashion world through my University by doing an Internship. My main interests are design, pattern making and model fitting and sewing/prototype creation, but I would love to learn and experience different areas and types of work.

I am 27 years old, I have lived in Sweden and in Japan for studying and I have always worked while studying, so I have some years of costumer service experience, both in sales and customer care. I would love the opportunity to grow and learn in a good environment.
