i love neutral color be-  
cause it's makes me feel  
look more elegant even  
it's neutral color and  
even the clothes has  
simple pattern

if you notice, some color looks sweet in body, like pink or soft color. it's looks fit with skin and make looks calm.

not only neutral, but i also like outfit with bright color. bright color makes skin looks brighter . if the outfit made from leather or silk, it can make my skin looks shiny.

fashion is not  
about what i wear  
but also what i  
feel. materials is  
so important for  
me. good clothes  
made from good  
material, besides  
that is combi-  
nation between  
silhouette, pat-  
tern, and color.

minimalist casual  
is my favorite kind  
of fashion because  
it looks simple but  
also preety.

i always choose  
some silhoette  
that fit in my  
body,loose its one  
of my favorite
