

A wide-angle photograph of a large outdoor festival at dusk. In the background, a large, illuminated, geodesic dome structure (the Solace dome) is visible. Two tall, metal scaffolding-like structures with lights are positioned in front of the dome. The foreground is filled with a large crowd of people. In the middle ground, there are various festival structures, including a small, brightly lit, arched booth and several tents. The sky is a mix of orange and blue, indicating sunset or sunrise.

THE FIRST DRUG DETECTING
BRACELET STRAW

the need.

inebriated

Studies suggest that between 21-25% of all sexual assaults may involve the victim being drugged.

intoxicated

Just over half (54%) of sexual assault victims believed that the incident was related to the offender's alcohol or drug use.

locations

"incidents of sexual assault most commonly occurred at a commercial or institutional establishment (43%)—such as a restaurant, bar, school, office building or shopping malls."

our product.
