Layout Design

Condominium Brochure

This topic is to design an introduction book for a villa on the lakeshore. The design should conform to the relaxing mood of the lakeshore and a “Zen” style.

The most challenging aspect of this design is how to arrange a concise style properly without losing interest, which will make the customer’s reading boring. The final plan is to use the basic shape of cobblestone to make interesting text layouts.

Interior Decoration

The interior decoration uses wood as the base, and then uses simple minimalism as the base. The villa has an open cabinet, living room and entrance. The windows can directly see the beautiful view of the river bank.

Floor Plan

It can be seen from the interior plane design drawing that the entire plane adopts a straight-line design, which is simple and emphasizes the spatial performance, comfortable and spacious.

Forest Walking

We have a superior natural environment and forest trails, these entrances are not far from the villa. You can easily walk the forest trails during holidays or after get off work hours.

Fishing

Fishing is indispensable in this place, you have to experience leisure activities, because the shore is next to the villa.

Canoeing

Canoeing is definitely an indispensable sport here, and canoeing here is definitely a great enjoyment. Be sure to make good use of the environment and time here.

Off-Road Biking

In the nearby forest trail, if you look carefully, you will find many trails in the trail. Those are for bicycles, you can ride the bicycle and find excitement in the trail.
