For our first style we decided to create an office pencil skirt most of the target market are business woman. We wanted to offer women something sophisticated and neutral for work. We decided to use fabrics that women will be comfortable wearing in the office. The colors of black, navy and grey for the garment because the colors can easily be matched with a vibrant shirt or a basic top with a blazer. The price point of this garment is at \$59.95 which is affordable and fits within the price range of Le Chateau's office skirts. We chose to produce this garment offshore since it is a basic that we will sell a large quantity of.

For our second style we decided to create an elegant long satin skirt with a slit down the middle. The style of the skirt can be worn by any age of their target market where that it is a stylish piece that flows perfectly with your body as you walk. We chose autumn colors of taupe, mauve and grey that can be perfectly matched with a basic top and blazer. We chose the retail price of \$99.95 because this garment is a unique piece that contains rich fabrics and colors. The garment will be produced domestically because of the fabric and color that we chose has to be of the greatest quality.

For our third look we have decided to create a suede fall skirt. This skirt is a must to be able to pull off the perfect fall look. We have chosen to add the lace up embroidery to make this skirt unique, where that it would fit well with a basic top. We chose some amazing fall colors of forest green, burgundy and a fall yellow. We have priced this skirt at \$89.95 because of the fabric and embroidery. The garment will be produced by a wholesaler who will be able to create the details of this skirt perfectly.
