

Once upon a time, there was a teenage girl named Lucy - who lived in a large house in Los Angeles, California. When she was on her way to school, she discovered a large mammal book laying on the floor. Lucy had no idea who the belonged to, as there was no owner's name at the front or back, so she decided to hide it in her backpack.

When Lucy got home, she decided to place the book in her room until she could figure what to do with it - without her parents being aware about it. One night, when Lucy was doing her homework in her bedroom, she suddenly felt a golden yellow light shining behind her. She saw that the light was coming from the mammal book.

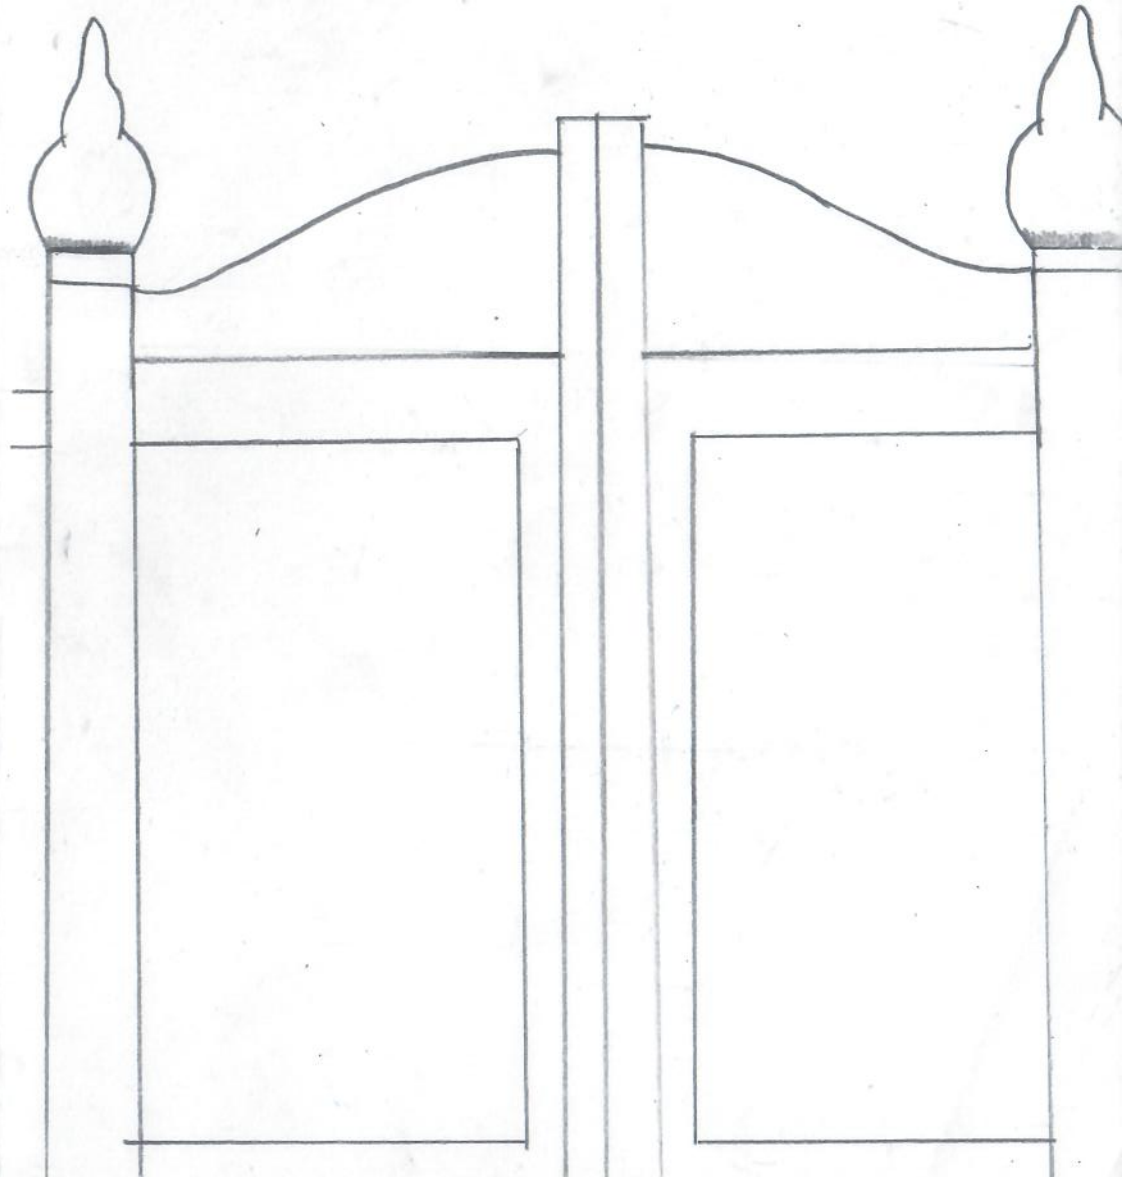

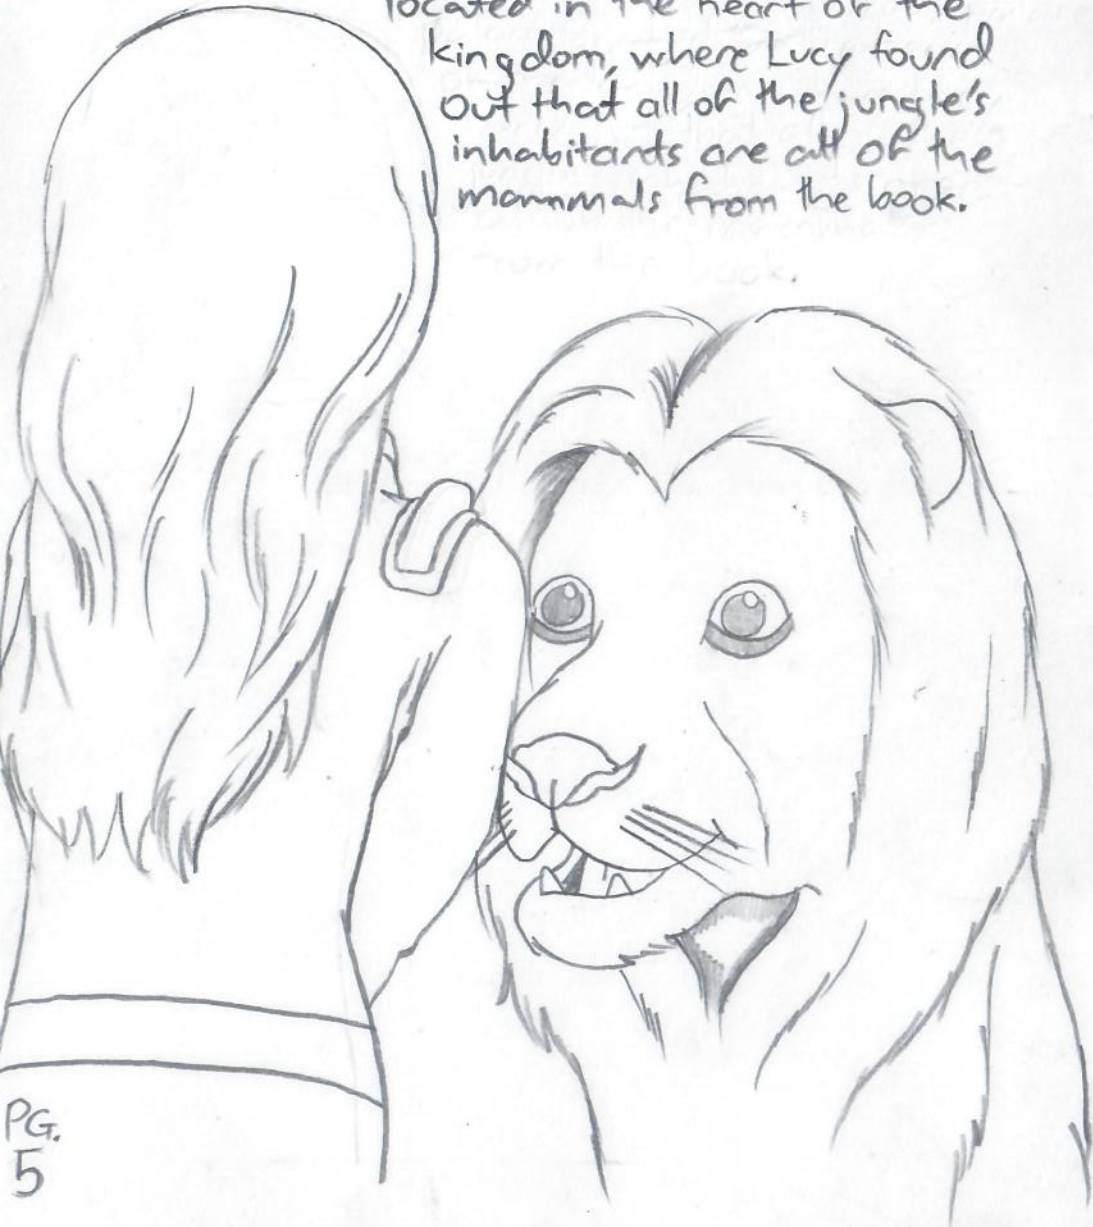

She then slowly opened the book. Suddenly, as she tried to do so, the book loudly popped open. The walls and objects in the room began to fade as the book started to quickly transform the room into an imaginary world unlike any other.

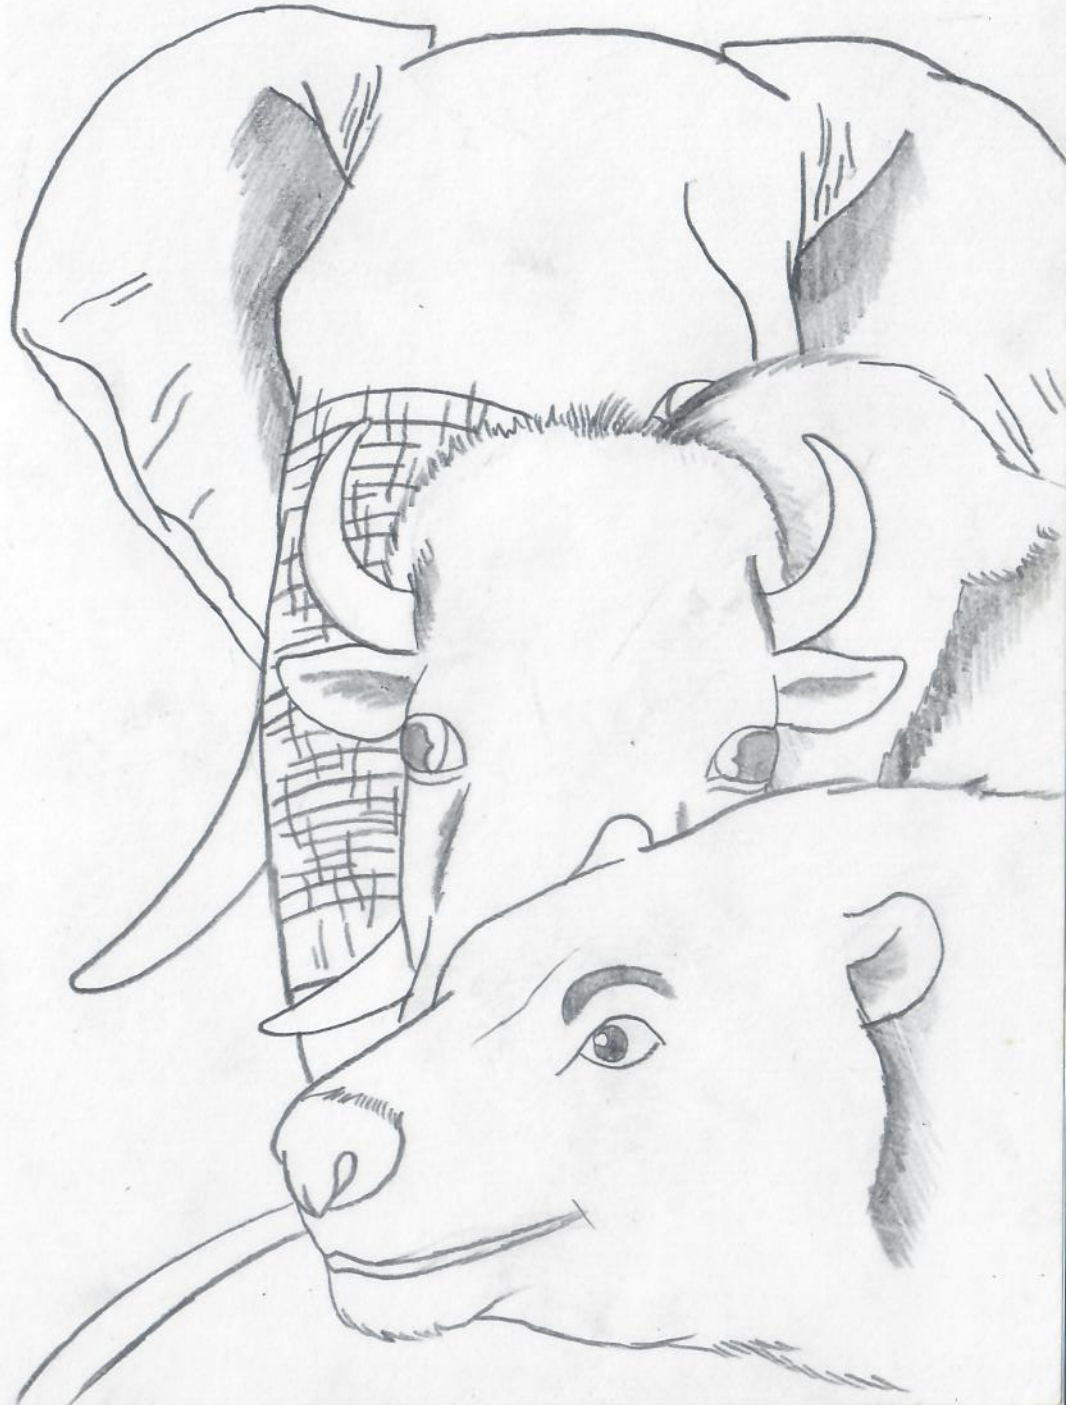

When Lucy woke up, she saw that she was transported into a jungle-like world known as the Enchanted Lands. She was a little scared at first of her new environment, and also since she did not see any inhabitant at first.

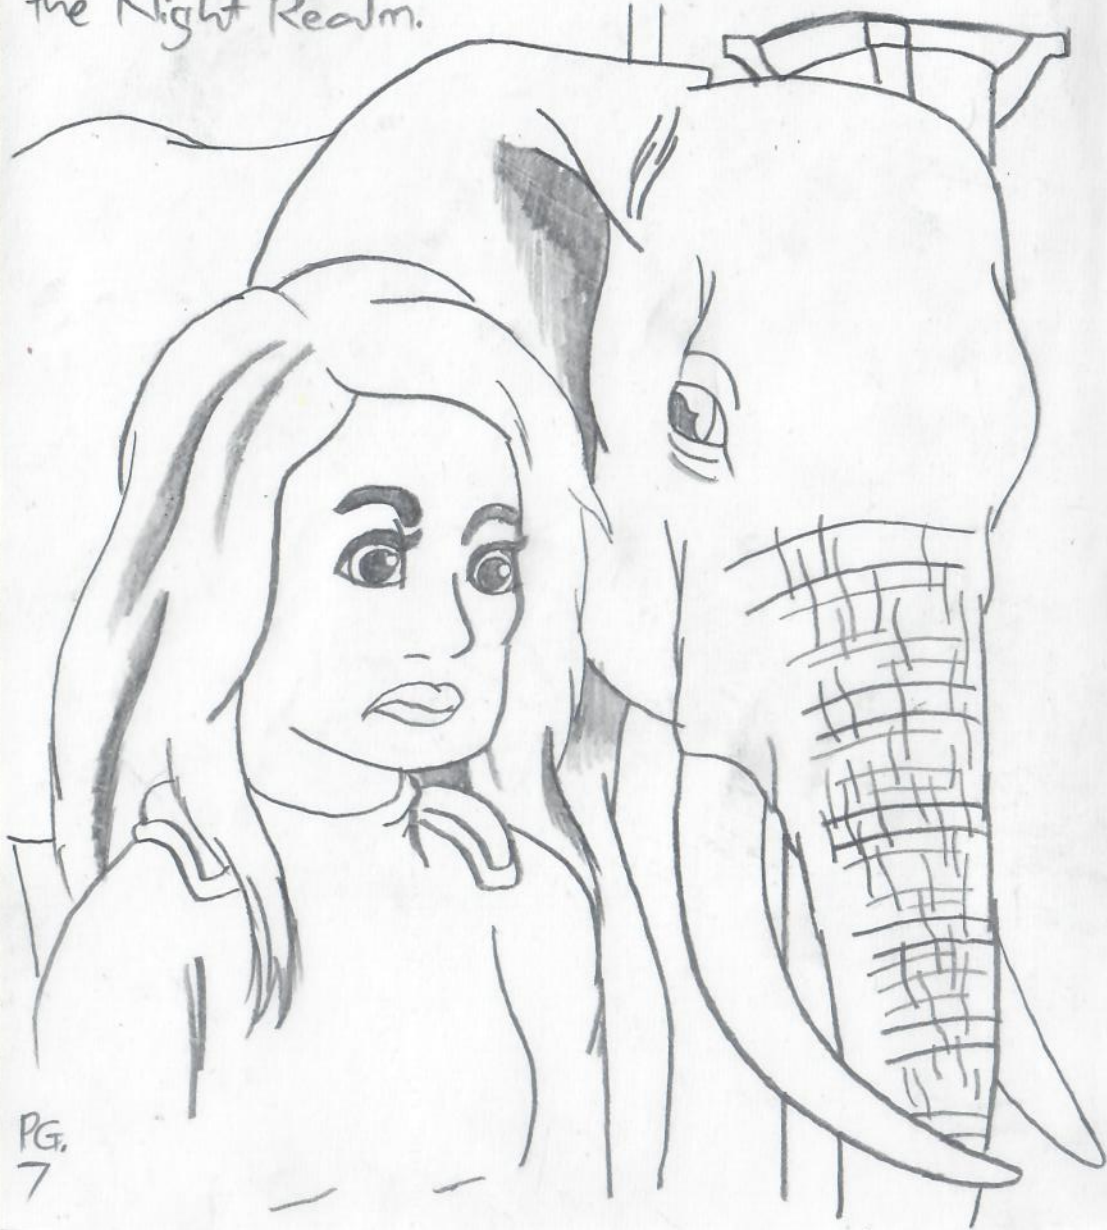

Eventually, Lucy was brought to the king of the Enchanted Lands, a mighty and benevolent lion named Samson. He tells her that she was brought to the jungle because of a wrongdoing that only Lucy can fix. With that, Samson brought her to an enormous palace located in the heart of the kingdom, where Lucy found out that all of the jungle's inhabitants are all of the mammals from the book.

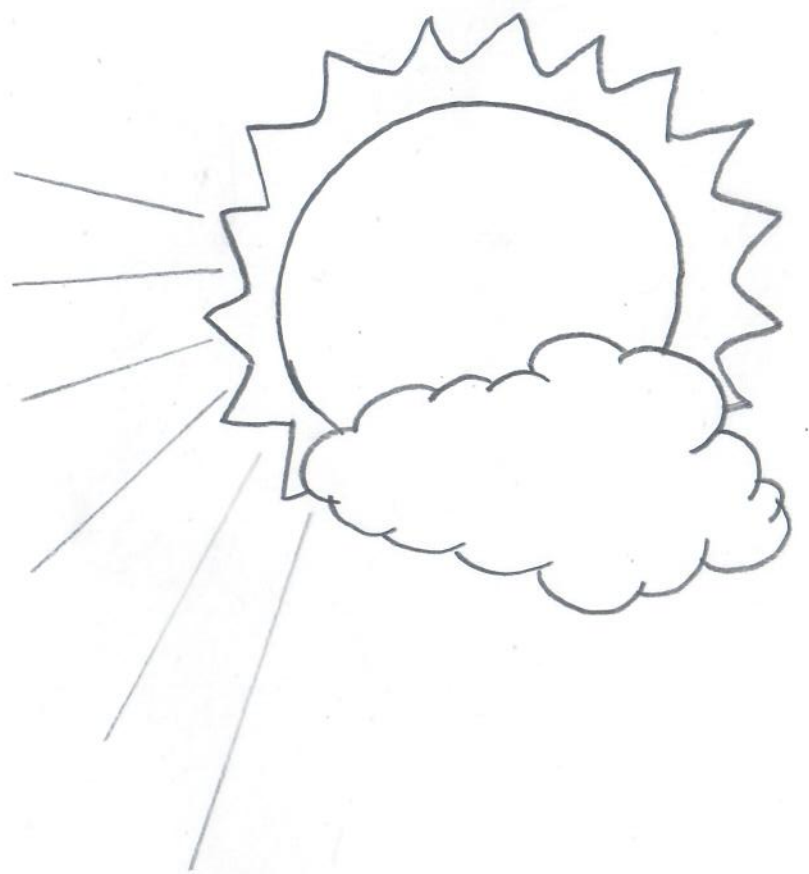

Samson brought her to meet a few other significant mammals who ruled a few other parts of the Enchanted Lands - an African elephant named Rambo, leader of the Savannah Realm; Preston, a large American bison who ruled the Mountain Realm; and Lance, a polar bear who ruled the Snow Realm.

They explain to Lucy that the animals
have spent many, many years fighting
against the Night Realm, a dark lair where
villainous, terrifying mammals roamed.
They also said that Lucy is the only one
who can help the Enchanted Lands defeat
the Night Realm.

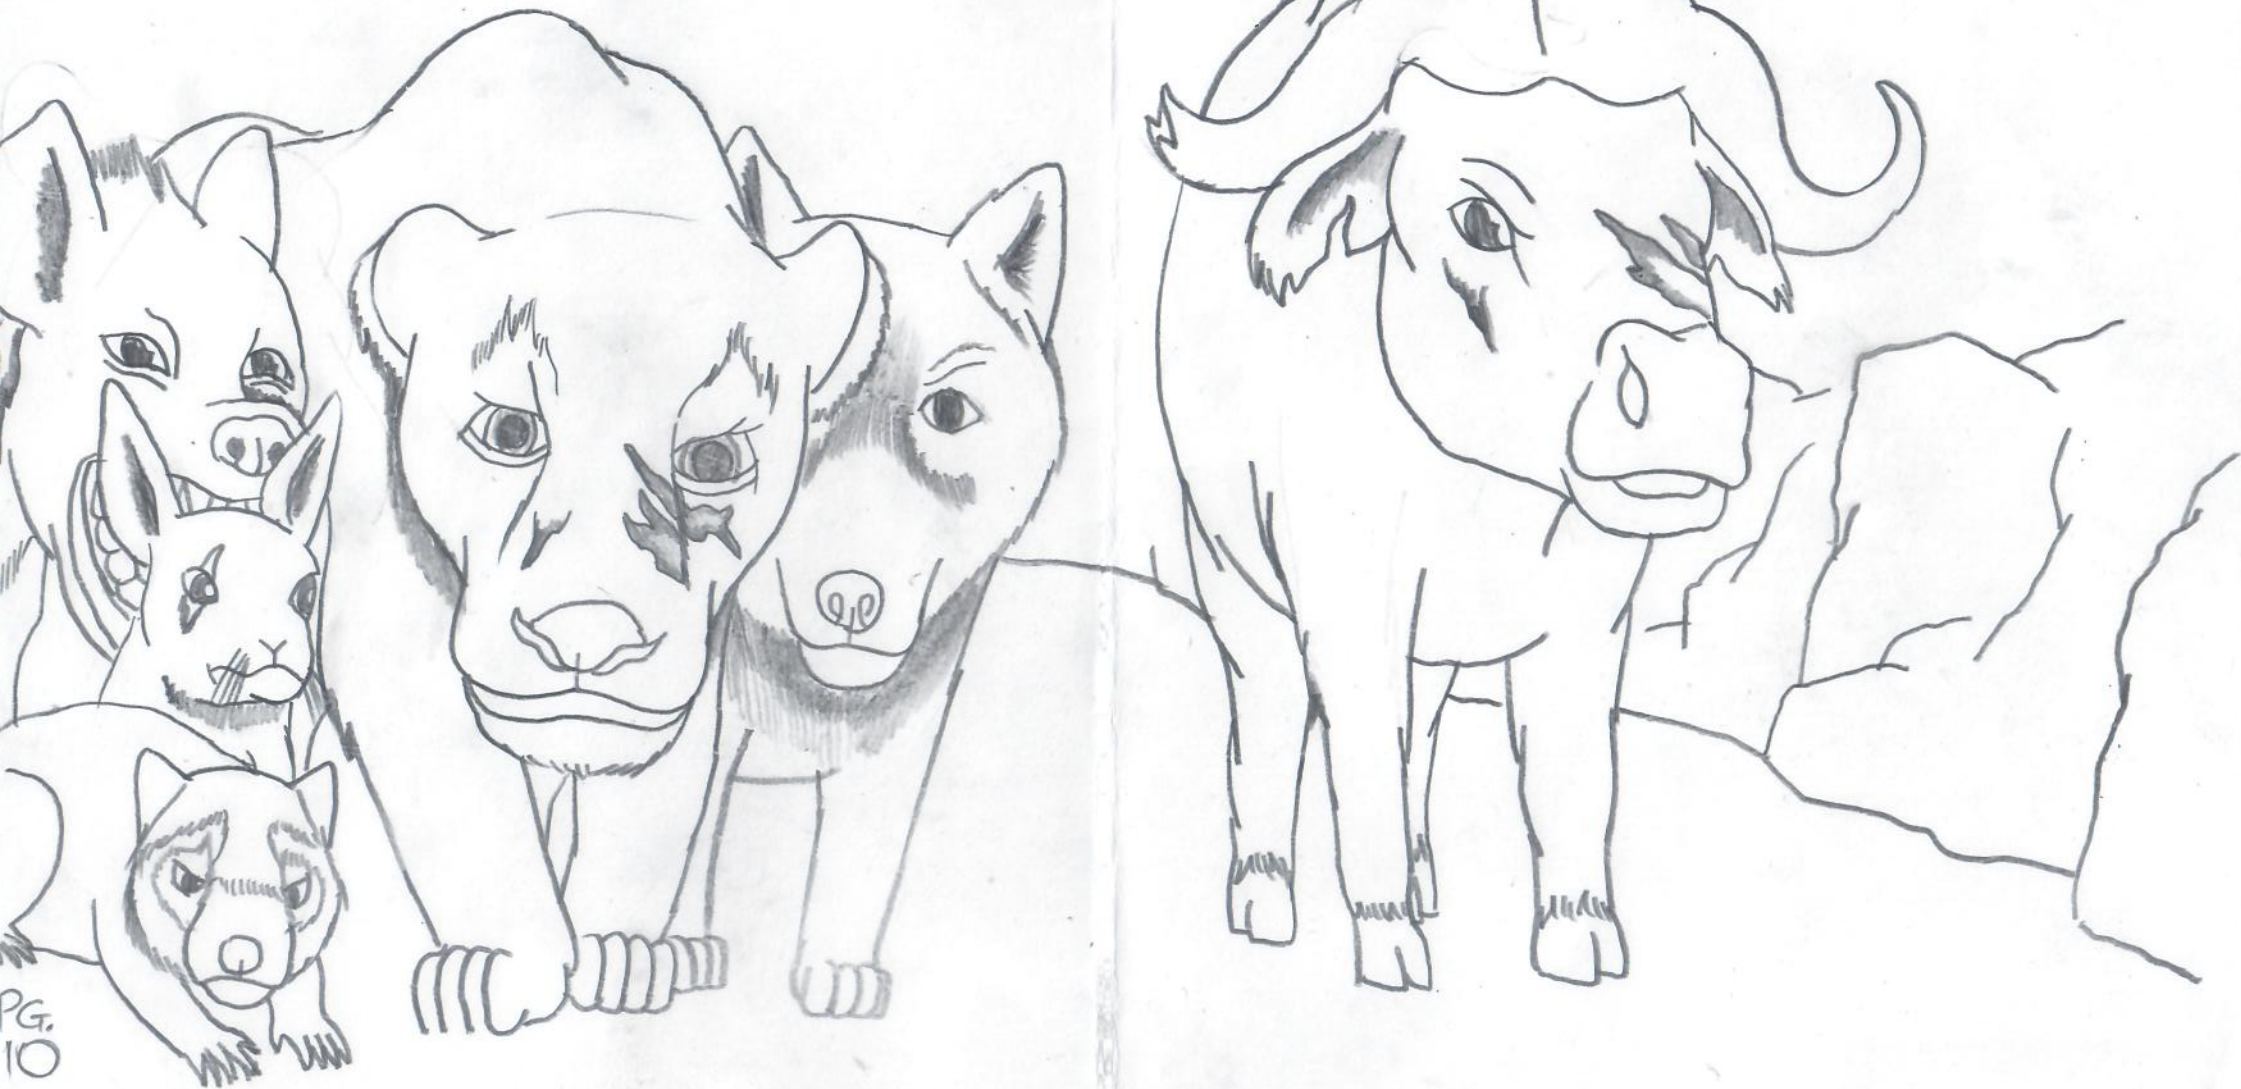

One day, while everyone was having a drink at the Sister Falls, a famous group of waterfalls near the Savannah Realm, Samson detected the biggest threat to his kingdom - in which the threat appeared in the form of a fearsome and scarred mountain lion named RJ, who was the leader of the Night Realm.

RJ was an old enemy of Samson's from many years ago, RJ had been Samson's enemy because of the mountain lion's envy for Samson, since RJ wants to overthrow Samson and become king. As a result, Samson banished RJ and his minions into the Night Realm. RJ vowed that someday, the throne would be rightfully his. This made Lucy and Samson realize that the kingdom had to do something to get rid of RJ for good.

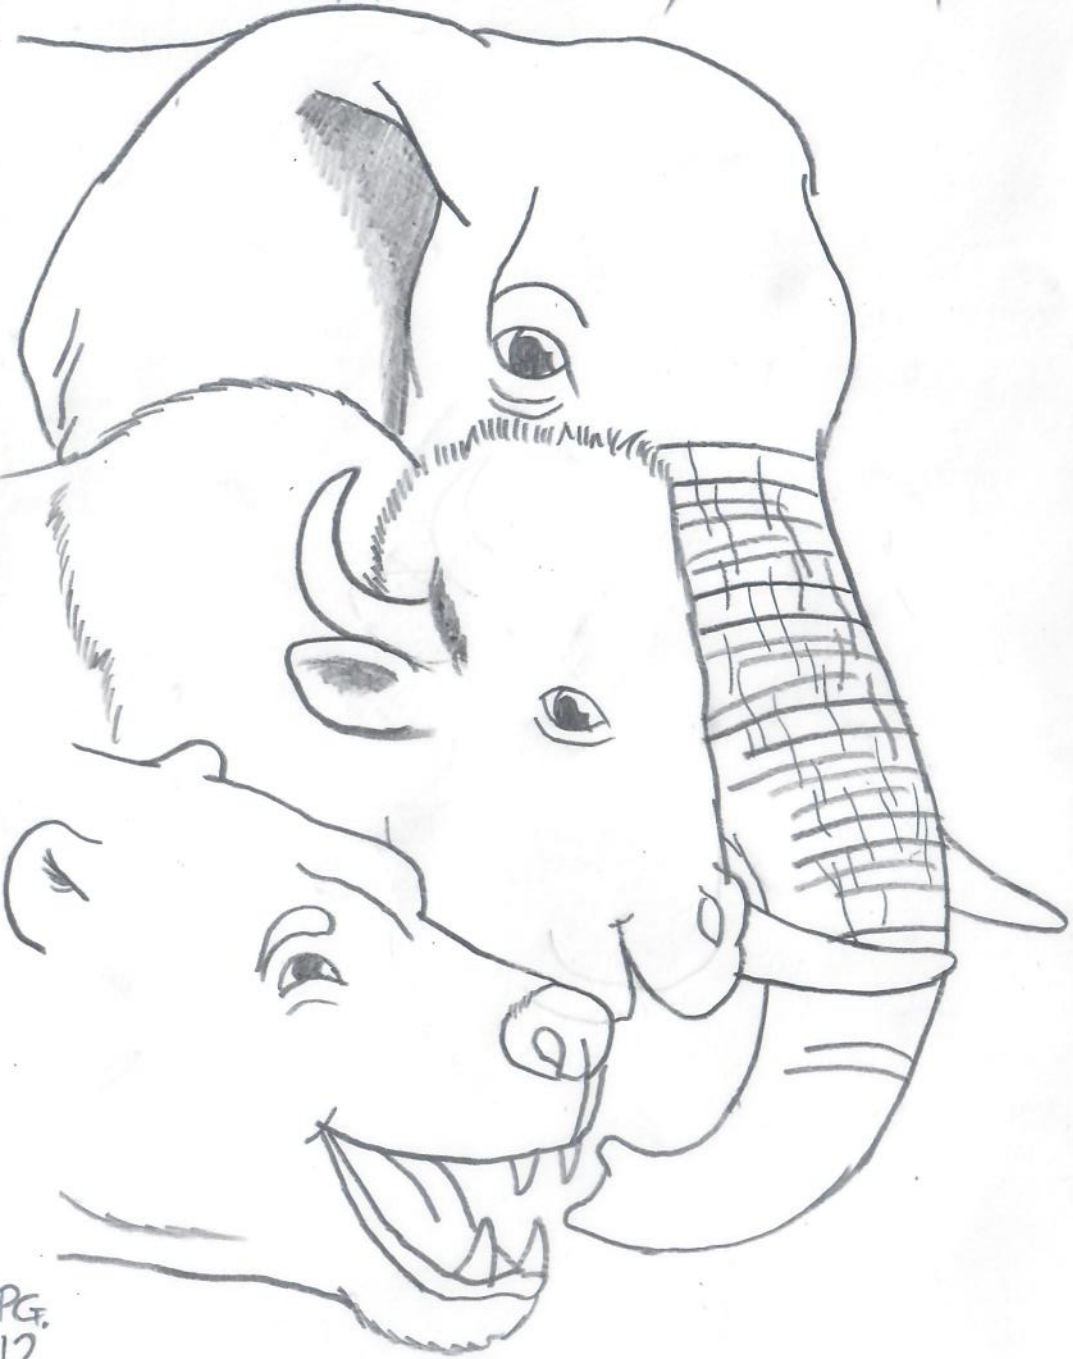

Next day, while the animals had prepared to abandon the Enchanted Lands in search of a new home, the Night Realm animals cornered them. RJ began an all-war by having his minions attack the Enchanted Lands animals. While Samson was able to evacuate most of the animals.

RJ chased Lucy, who bravely fought the mountain lion on a high, rocky cliff. Moments later, RJ was pushed to the edge by Lucy, and then, the ledge RJ was standing on began to crack, and he falls to his death in a deep chasm below, thus ending his reign of terror for good.

With the enemies gone for good, the Enchanted
Lands had been restored to its former glory.
The animals happily thanked Lucy for her help.

Eventually, Lucy realized it was time for her to go home. With that, Samson warmly obliged and let out a mighty roar, and it opened a portal up in the sky that sent Lucy back home into the real world - as she said goodbye to the Enchanted Lands.

Finally, Lucy found herself back in her own bedroom. The next day, as she returned to school, she decided to put the book back to the same location where she found it. Lucy ultimately realized that the book actually belonged to a friend of hers, Matt, who picked up the book. Before he could leave, Lucy told him to be aware of what may happen next with the book, as she told him about her adventures in the Enchanted Lands. With that, Lucy learned to become more aware with anything that may happen to her for the years to come.
