Skirts

From staycations to two-mile wear, a comfort and function-first refresh for skirts is integral when aligning to new lifestyle shifts

S/S 21 will see #twomilewear and #stayhomestyle infiltrate categories beyond loungewear through to skirts. From cosy, knitted styles to pull-on elasticated waistlines, give your skirts a comfort-first refresh to align with the new push for everyday casualised dressing.

Dinah's strength of vision led to establishing her own studio devoted to a single-minded purpose: outerwear for the physical, knows no ceiling, unrelenting woman. Balancing shape while increasing tension within each piece is the shell for functional mechanics. LUXTON is a new perspective in outerwear where streamlined, ballooning, cropped and cinched silhouettes combine with warmth and weightlessness enable us to expand outdoor life with acute relevance.

The Mani Jassal Brand aims to develop a community of women celebrating the multiple layers of their identity and upbringing. A division between an ethnic and everyday wardrobe is a reality for many women with Mani's story. This barrier between identities is one that Mani aims to dismantle with her designs. Mani's pieces display Indian influences that can be worn for multiple occasions. Comfort, quality and minimalism are design principles that the Mani Jassal brand operates under.

Victoria Hayes grow up in Toronto , Canada, Hayes enjoys a wide range of inspiration that are perpetually shifting. Her designs are seen worn by some of her favorite celebrities like Lady Gaga and Alicia Keys has been really exciting. Hayes first official fashion presentation was showcased at Toronto fashion week. All her previous collections have been presented in lookbook format, she actually has never done a fashion week presentation before. Looking forward to sharing my work in Toronto.
