Design Concept

The office design is inspired by the company's own feature and culture. BRON animation is a part of BRON STUDIO which produces featured films, television series and animations. BRON animation itself produces animated video for both film and television markets. Their portfolio is as young as it is diverse and exciting. Its branding focuses on producing entertaining media for young aged group. Their animations are fun, colourful and energetic. The logo is designed in bolded letter in red color with sharp and curved corners which represents strength, power and energy.

51

The design will create an efficient space with open work area and individual offices as well as bring in as much as natural lights throughout the office. Since the design is inspired by the company's culture that is young, diverse and exciting. Colorful colors will be one of the key elements in the design in order to create an energetic environment.
