HEAVY DUTY MATERIALS

Denim Pants

HEAVY DUTY MATERIAL

ANALYSIS :

The case on the denim pants that I detected is the abrasion in the knee area which shown by the teared fabrics, also below the pocket with the similar case. I also found a more faded color on the bottom or back area of the pants.

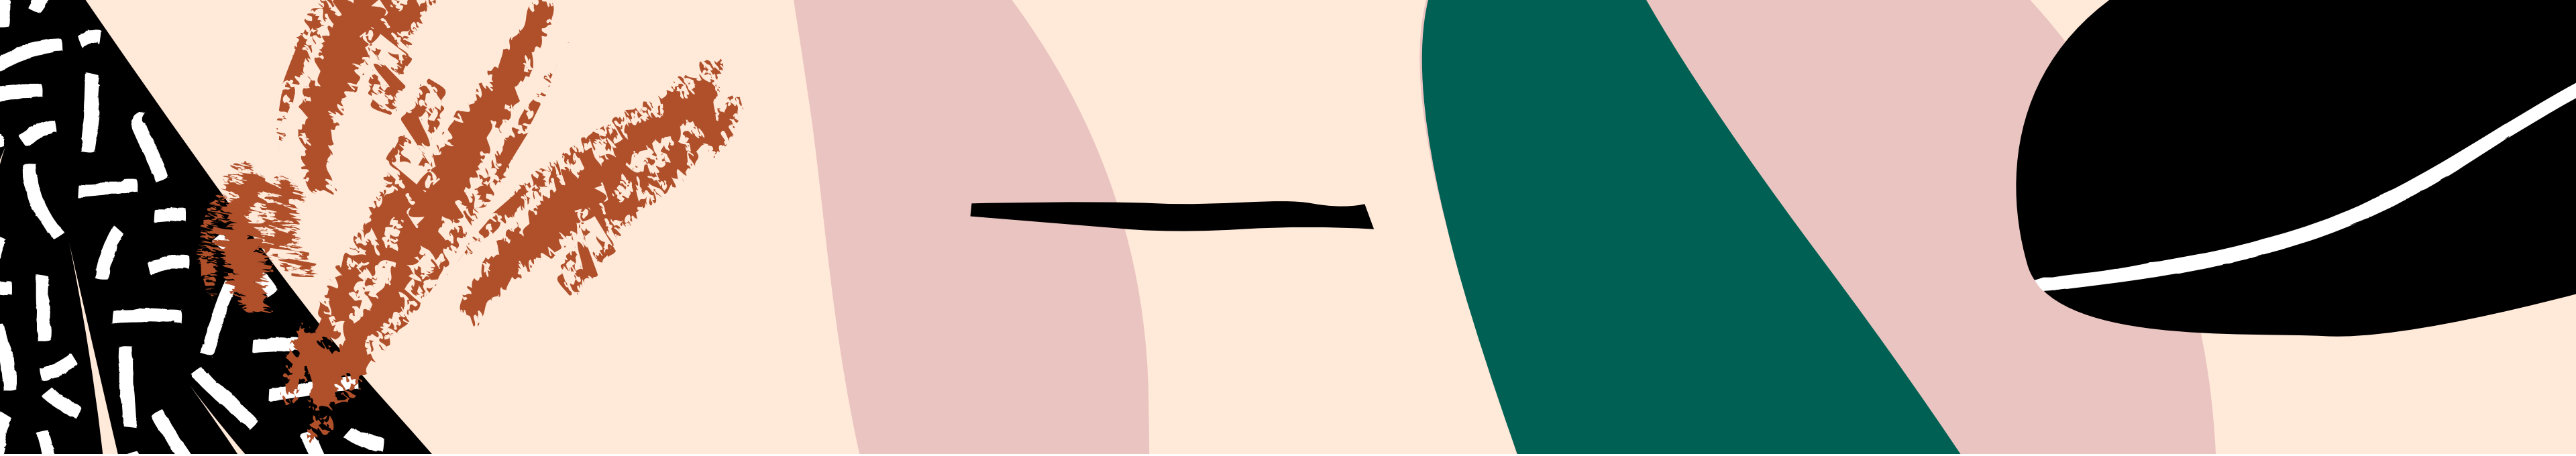

Tweed Outer

HEAVY DUTY MATERIAL

ANALYSIS :

I found an abrasion case on the tweed outer, signed by the loose thread and the pulled thread coming off to the outer's surface (snagging).

REGULAR MATERIALS

Cotton Blend T-Shirt

REGULAR MATERIAL

ANALYSIS :

I found a dimensional change in the T-shirt, in the collar and neck area. The t-shirt itself is made from cotton blended with elastane, which make the top comfortable and a little stretch.

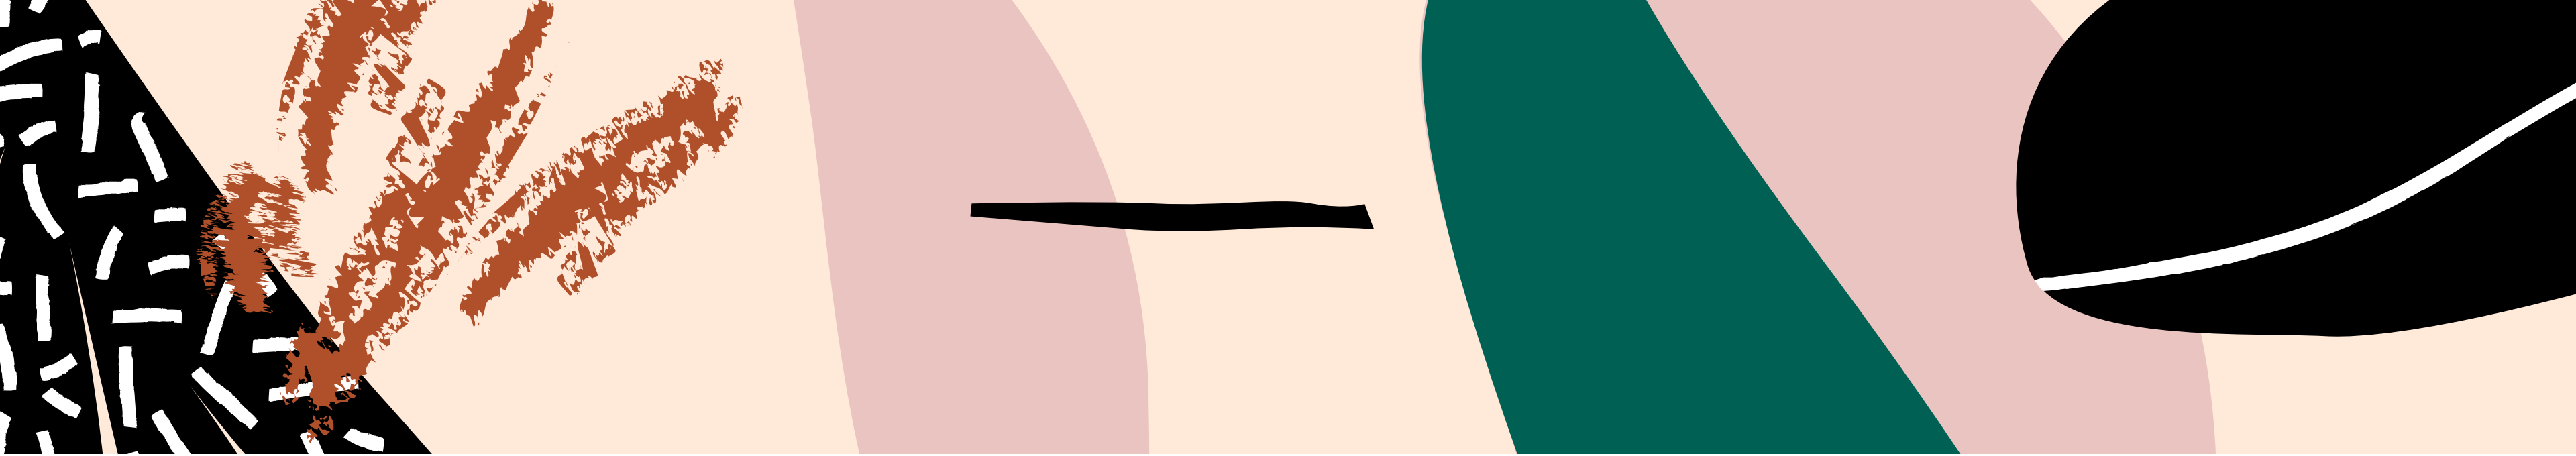

Cotton Pants/Leggings

REGULAR MATERIAL

ANALYSIS :

I found a snagging case on the legging. The snaggings are surrounding the whole pants, especially in the knee and back of the leggings.

LIGHTWEIGHT MATERIALS

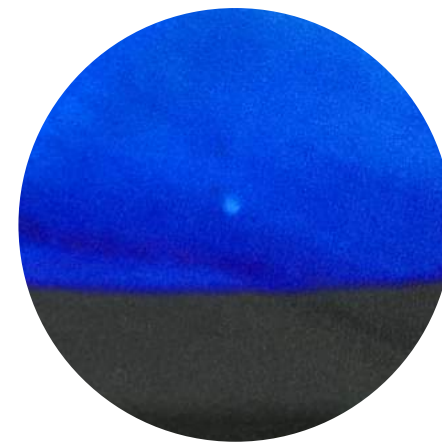

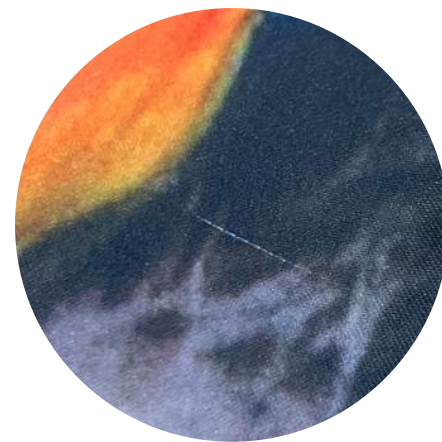

Chiffon Scarf

LIGHTWEIGHT AND SHEER MATERIAL

ANALYSIS :

I found a stain and uneven color on the scarf, also the fiber is scratched on some area of the surface.

Chiffon Crepe Outer

LIGHTWEIGHT AND SHEER MATERIAL

ANALYSIS :

I found an abrasion case on chiffon crepe, and the seam is ripped on the sleeve area. There are also scratches and snagging case in some parts of the outer, signed by the scratched fibers.
