FASHION IS EXPRESSION AND ART

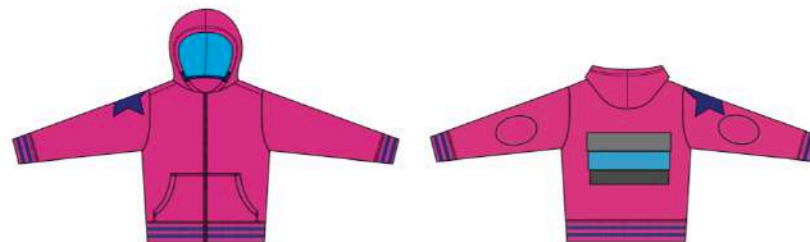

I am an enthusiastic person, dynamic and with great capacity of learning, positive, creative, responsible and retailer.

I work with the mixtures of different fabrics in the same garment and with the asymmetry, I am a great defender of the Moulage and of the experimentation of the patterns. My main references are Jacquemus of which I like the way they work. Sacai and his experimentation with the asymmetries without taking him to an extreme side. On the other hand, Delpozo and its ability to mix architecture with fashion with structured garments from the pattern stage.
