Deep Girl - I Kill
This song tells the story about bullying going on in a school.

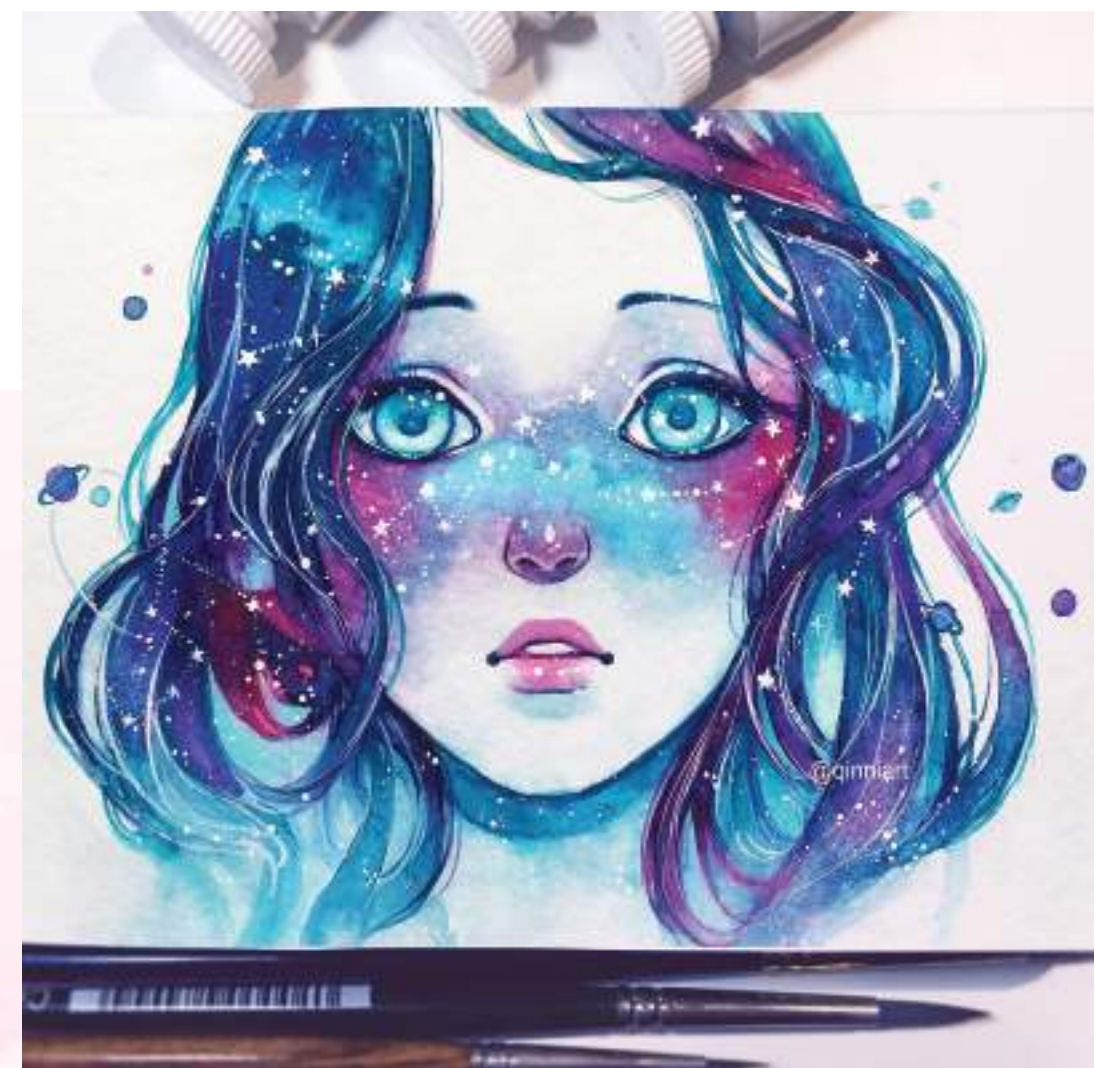

The appearance of 5 seemingly innocent looking girls mixed with the heavy melodic death metal screams resonates with me.

The song calls for the type of aesthetic/portrayal of myself that I have. If only they had been shown the same kindness perhaps it wouldn't have come to this.

Sailor Moon

Sailor Moon has been apart of my life since I was a little kid. It shows a world where you can be strong and feminine (perhaps even hyper-feminine). If Sailor Moon could protect her loved ones, and be a queen in the distant future, why could I not handle the simple daily tasks I faced with grace?

Qinniart

Qinniart is an artist who faces a serious heart illness. She has undergone numerous open heart surgeries yet makes some of the most beautiful art I have ever seen.

She depicts the kind of femininity, and positivity that I want to translate into this world. No matter what you're facing, you can still make the world a better place.
