

Location: Montreal, Quebec

As a fresh graduate in 2D/3D Animation & Professional Photography from College Inter-Dec in Montreal, I am interested in expanding my professional horizons and personal desire by seeking new challenges in the animation and graphics industry.

I have shown myself to be self-motivated, committed and determined in achieving my goals. I have also demonstrated negotiating and organizing skills, a firm sense of responsibility and my capacity to work hard under pressure.

Enjoys being part of a successful and productive team and thrives in highly pressurized and challenging working environments

Practical approach to problem solving and the organization required to ensure that deadlines and objectives are achieved.
