An amusement park is a park that features various attractions, such as rides and games, as well as other events for entertainment purpose, that bases its structures and attractions around a central theme, often featuring multiple areas with different themes.

it usually evolved from European fairs, pleasure gardens and large picnic areas, which were created for people's recreation. World's fairs and other types of international expositions also influenced the emergence of the amusement park industry. For my main Inspiration, I chose Ferris Wheel, Roller Coaster, Swing Ride, and Carousel.

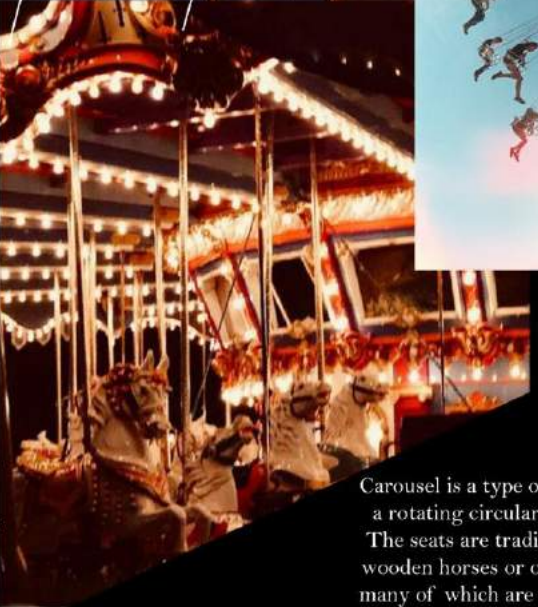

*Inspiration*

A ferris wheel is an amusement ride consisting of a rotating upright wheel with multiple passenger-carrying components (commonly referred to as passenger cars, cabins, tubs, capsules, gondolas, or pods) attached to the rim in such a way that as the wheel turns, they are kept upright, usually by gravity.

The swing ride or chair swing ride is an amusement ride that is a variation on the carousel in which the seats are suspended from the rotating top of the carousel.

A roller coaster ride is one in which a specialized railroad system with steep drops and sharp curves, passengers sit and are restrained in cars, usually with two or more cars joined to form a train. Some roller coasters feature one or more inversions (such as vertical loops) which turn the riders upside down.

Carousel is a type of amusement ride consisting of a rotating circular platform with seats for riders. The seats are traditionally in the form of rows of wooden horses or other animals mounted on posts, many of which are moved up and down by gears to simulate galloping, to the accompaniment of looped circus music

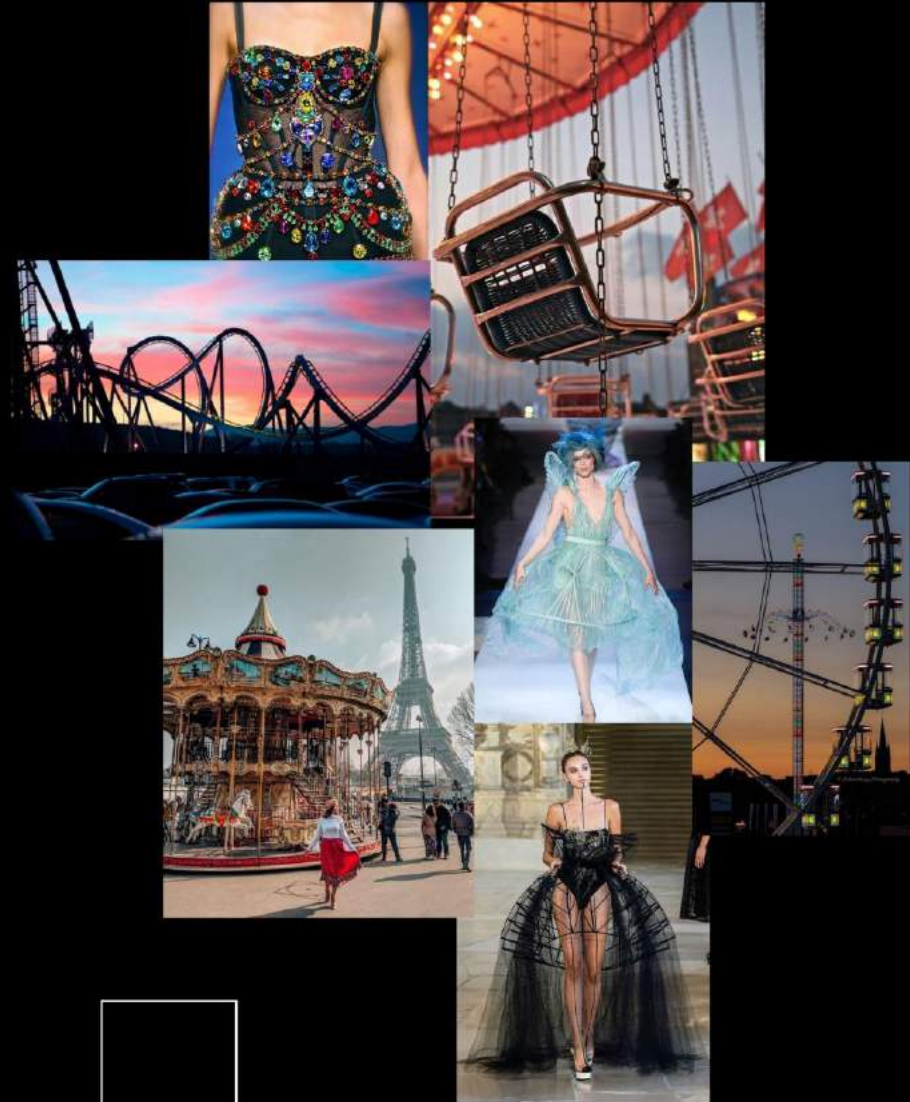

concept

I wanted my collection to be elegant and edgy, but yet still has a fun side. Because all of my looks is evening wear, I mixed couture style with a bit of avant garde. I use a lot of boning or frame work (to represent ferris wheel, carousel, swing ride, and roller coaster) for every of my looks, with beading details.
