# CONCEPT

حسب

The Middle-East today is a mixture of everything that exist in the surroundings. It's a mix of cultures, religions, languages, style, art, textures, colors, and traditions. But it is known and seen as it's original identity.

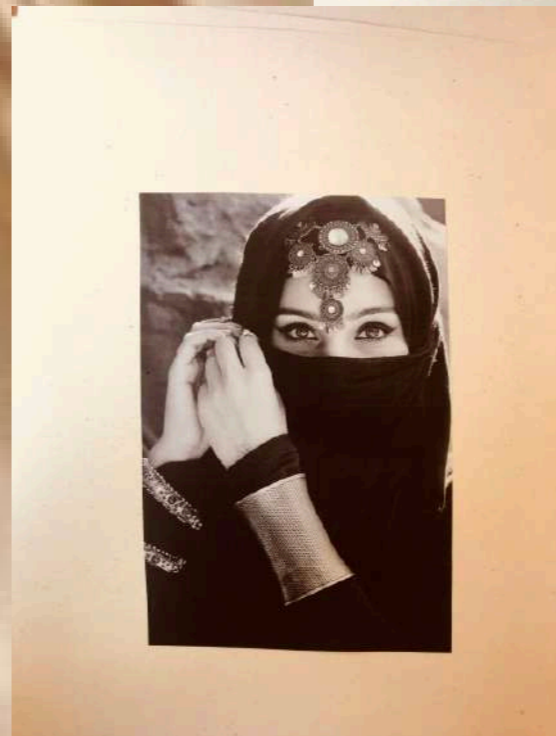

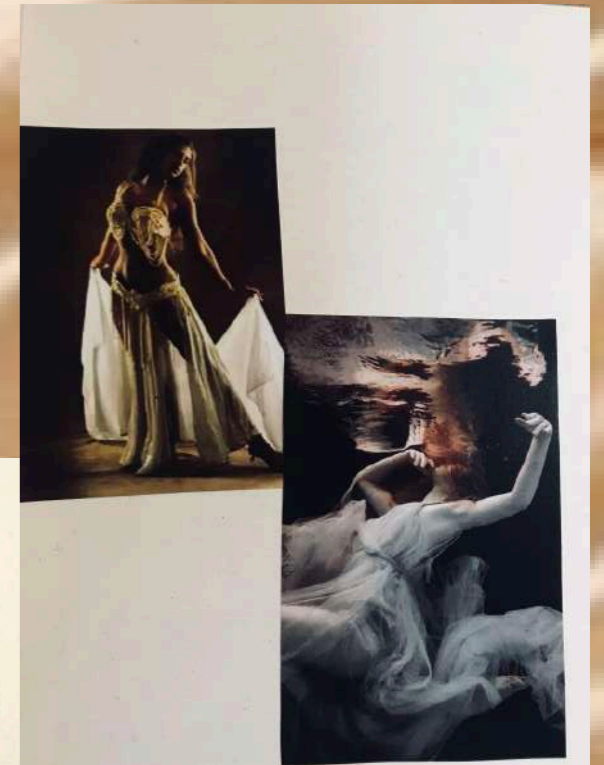

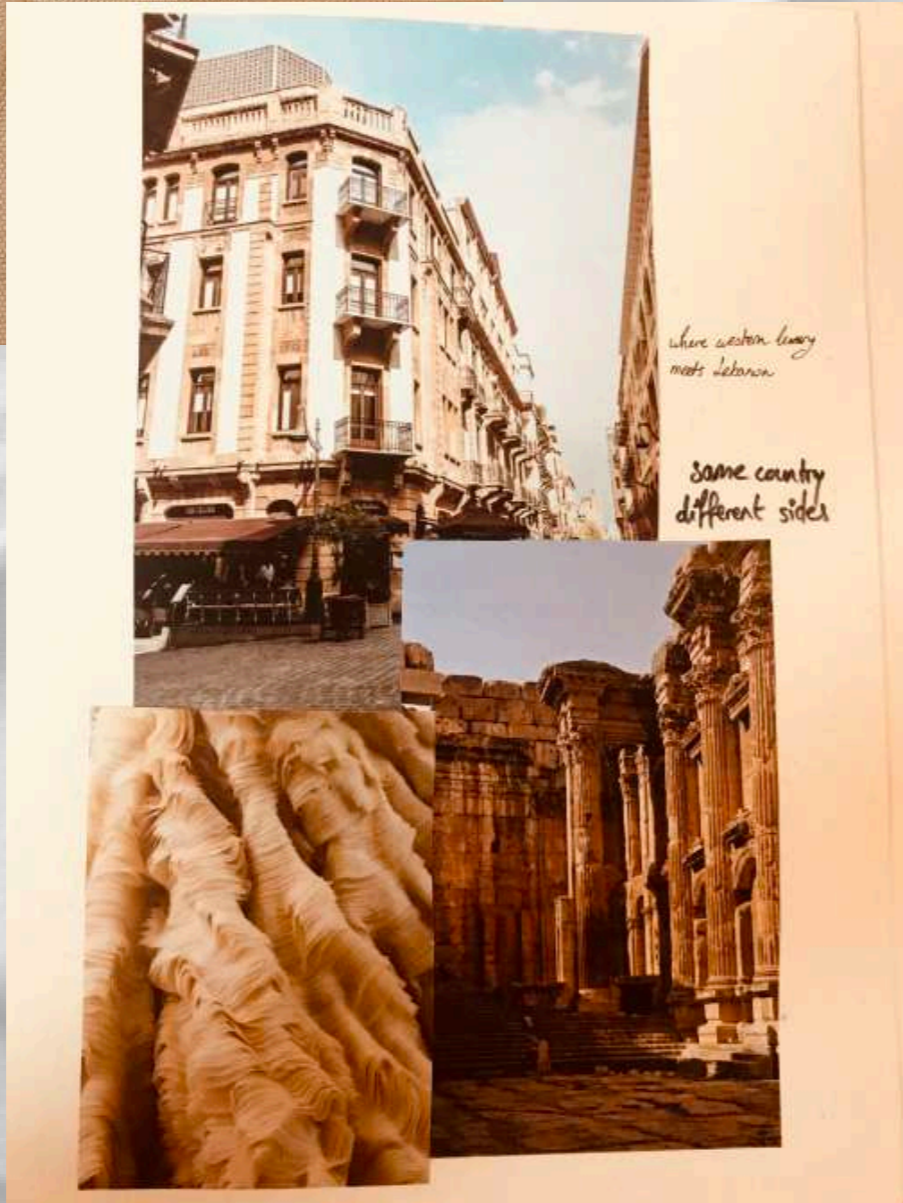

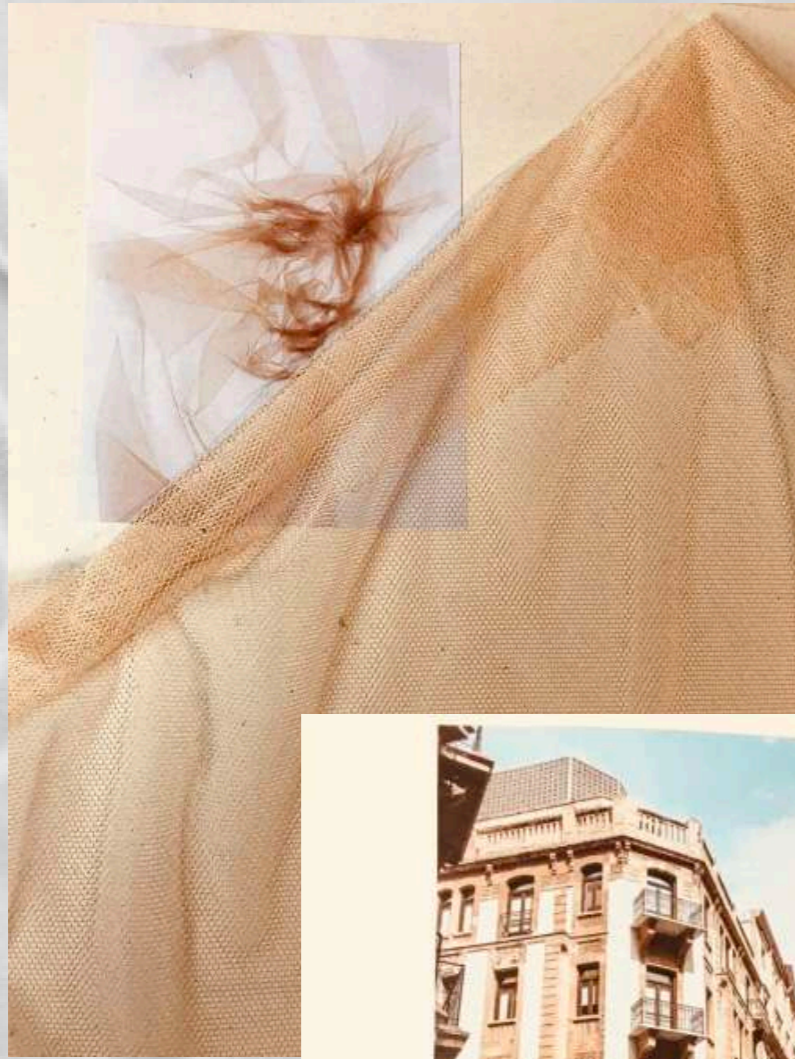

Regarding rough textures that comes from architectural aspects and soft ones that origin from deserts, volumetric and geometric shapes, strong saturated colors and soft nude colors, chaotic patterns and fine typography lines, they seem like a contrast between the Middle Eastern style and the Western World. But they are all a definition of the Middle East.

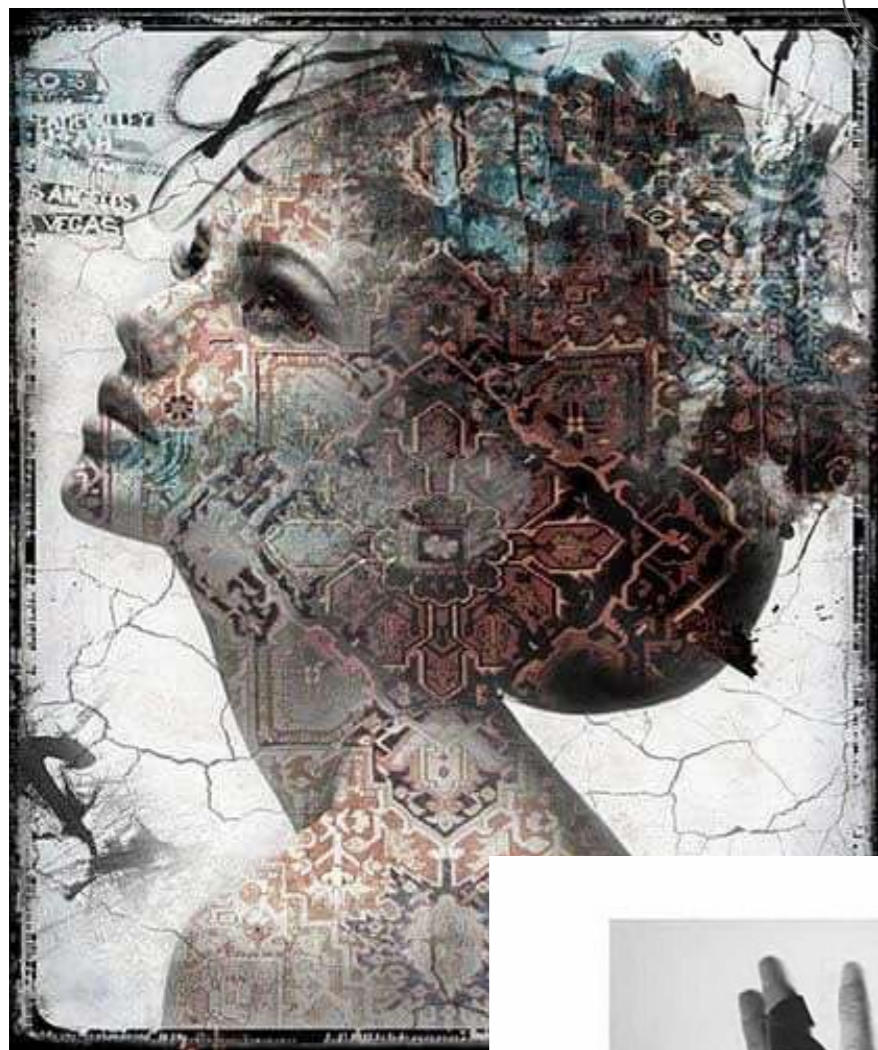

Throughout this collection, elegance, modernity, and delicacy will dominate by a touch of the Middle Eastern signature.
