Dear Ms Gil

My name is Carmina García and I will be graduating for LaSalle Collage's Fashion Marketing program in Montreal Canada this up-coming May. I am very interested in doing an 3-week internship in your esteemed company MANGO. I have always been passionate about working in your company. I believe that your company is the best place where I can gain all the needful knowledge which I will be able to use in my future.

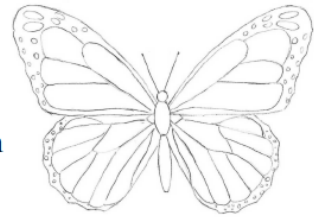

I am an honest person, I believe that you can learn something new everyday. I am proficient in Spanish English, French and I have computer skills. I have excelled in them during my school years. I am a team person and I work well with other people in order to achieve a common goal.

As I started earlier I would love to work with your company. I am ready to attend a personal interview for the job. I live near the headquarters so I would be able to report in a moment's notice. I hope that you do the necessary.

Best regards,

Carmina García
